IN THE MATTER OF THE APPLICATION
OF UNION OIL COMPANY OF CALIFORNIA
FOR AN UNORTHODOX GAS WELL LOCATION,
LEA COUNTY, NEW MEXICO.

CASE NO. 9705

APPLICATION

UNION OIL COMPANY OF CALIFORNIA, by and through its undersigned attorneys, hereby makes application to the Oil Conservation Division for approval of an unorthodox gas well location, and in support thereof states:

1. Applicant is the operator of the N/2 of Section 29, Township 19 South, Range 33 East, N.M.P.M., Lea County, New Mexico, and proposes to drill its Madera Federal No. 4 Well at a point 460 feet from the North line and 1980 feet from the East line of Section 29.

2. Applicant seeks an exception to the well location requirements of Oil Conservation Division Rule 104 for any formations developed on 320-acre spacing units to permit the drilling of a well at the above described unorthodox location to a depth sufficient to adequately test the Morrow formation, Gem Morrow Field.

3. Approval of this application will afford applicant the opportunity to produce its just and equitable share of hydrocarbons underlying this spacing unit and will otherwise be in the best interest of conservation, the prevention of waste and the

protection of correlative rights.

WHEREFORE, Applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on July 26, 1989 and that, after notice and hearing as prescribed by law, the Division enter its Order granting this application and providing such other relief as is proper.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
