AIR MAIL

State Conservation Commission
Santa Fe, New Mexico

Attention: Mr. Bill Macy

Gentlemen:

Pursuant to our telephone conversation of today, we attach three copies of formal application for approval of Williams Ranch Unit covering all of Sections 8 and 17, 1-16-S, R-34-E, Lea County, New Mexico.

We are at the present time preparing unit agreement and unit operating agreement. Copies will be furnished you as soon as available.

We have, also, this day forwarded copies of formal application to the State Land Commissioner.

Yours very truly,

U. V. Lawrence
Roswell Division Land Manager

NEW MEXICO OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

APPLICATION FOR APPROVAL OF UNIT AGREEMENT FOR DEVELOPMENT
AND OPERATION OF THE WILLIAMS UNIT AREA
LEA COUNTY, NEW MEXICO

New Mexico Oil Conservation Commission
Santa Fe, New Mexico

COMES the undersigned, Shell Oil Company, a corporation with offices at Midland, Texas, and files herewith a copy of a proposed Unit Agreement for the development and operation of the Williams Unit Area embracing land situated in Lea County, New Mexico, and hereby makes application for an order approving said Unit Agreement, and in support thereof shows:

1.

That the unit area designated in said agreement and the source of supply to be affected by the order hereby sought comprises 1280 acres, more or less, situated in Lea County, New Mexico, more particularly described as follows:

Sections 8 and 17, in Township 16-South, Range 34-East,
N.M.P.M.

That all of the above described lands are lands owned by the State of New Mexico upon which the applicant and others are owners of Oil and Gas Leases issued by the Commissioner of Public Lands of the State of New Mexico.

2.

That there is attached to said copy of the proposed Unit Agreement, as Exhibit "A" thereto, a plat of the proposed Unit Area, and because of the geological and geophysical information available applicant believes that the above said area is an area suitable and proper for unitization.

3.

That the undersigned, Shell Oil Company is designated as the Unit Operator in said agreement, and the Unit Operator is given the authority under the terms thereof to carry on all operations which are necessary for the development and operation of the Unit Area for oil and gas subject to all

applicable laws and regulations. That said Unit Agreement provides for the commencement of a test well for oil and gas upon some part of the lands committed to the Unit Agreement on or before April 1, 1955, and for the drilling of a said well to a depth of 14,350 feet, or a depth sufficient to test the Siluro-Devonian Formation expected to be encountered at about said depth.

4.

That said Unit Agreement is in substantially the same form as unit agreements heretofore approved by the Commissioner of Public Lands of the State of New Mexico, and by the New Mexico Oil Conservation Commission; and that under the terms of the proposed Unit Agreement, the rights of the royalty owner, the State of New Mexico, are fairly protected and the State of New Mexico and each beneficiary institution of the State of New Mexico will receive its fair share of recoverable oil and gas in place under its lands embraced in the Unit Area.

5.

That operations to be carried on under the terms of said Unit Agreement will tend to promote the conservation of oil and gas in place under the lands in the proposed unit area and to prevent waste in that if production in paying quantities is obtained from such unit area (1) the production may be controlled without regard to interior lease lines to the end that reservoir energy will be utilized to the greatest advantage, (2) recovery methods that might not be practicable on a small area will be feasible and more efficient on the area of the proposed unit, and (3) the drilling of unnecessary wells with attendant fire and other hazards conducive to waste may be avoided. That said Unit Agreement is believed in all respects for the best interest of the State of New Mexico with respect to the lands embraced therein.

6.

That 93.75% of the owners on an acreage basis of oil and gas leases embracing lands within said area have agreed to join in said Unit Agreement, and it is believed that such owners will have joined therein by the time this application is heard.

7.

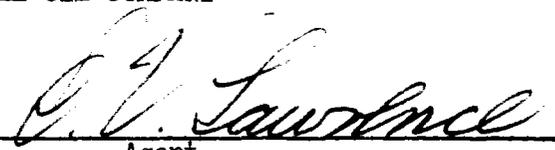

That an application is being filed for approval of said Unit Agreement by the Commissioner of Public Lands, and it is believed that his approval will be had if this Commission enters the order of approval hereby requested.

Wherefore applicant prays for an order permitting the unit operation of said lands and adopting the plan set forth in the said Unit Agreement and approving the said Unit Agreement for development and operation of said lands.

Respectfully submitted,

SHELL OIL COMPANY
