Re: West Indian Basin Unit Agreement, Case No. 2905

Dear Mr. Nutter:

You have very kindly placed on the docket for the Examiner's Hearing of September 25 the captioned Unit Agreement. We enclose formal application for approval of the agreement.

You will note that when I gave you the information for publication that I advised you that the unit area would comprise 4,278.29 acres of federal, state and fee lands in Township 21 South, Range 23 East, N.M.P.M., and the publication appears accordingly. After the notice was published, the United States Geological Survey determined to eliminate three sections from the designation of the proposed unit area, due to questionable title to leases involved and the failure of Mr. Enfield to obtain commitment of some of the acreage. Consequently, you will note from the application that the unit area has been reduced to four sections, or 2561.28 acres. We do not believe that the notice is defective on this account and would like to go ahead with the hearing on the basis of the enclosed application.

Yours sincerely,

HERVEY, DOW & HINKLE
