Attorneys at Law
Box 239
Artesia, New Mexico

Dear Sir:

Reference is made to Commission Order No. R-2876, entered in Case No. 3213, approving the International Oil & Gas Corporation State 647 Waterflood Project in the Artesia Pool.

Injection is to be fresh water down the casing in the two authorized injection wells, which shall be pressure-tested to 2000 psi prior to commencing injection. Please notify the Artesia District Office of the Commission of the date and hour these tests will be taken. In the case of any well which fails to withstand the pressure test or in the event that other than fresh water is used, injection shall be through tubing and packer.

As to allowable, our calculations indicate that when both of the authorized injection wells have been placed on active injection, the maximum allowable which this project will be eligible to receive under the provisions of Rule 701-E-3 is 252 barrels per day.

Please report any error in this calculated maximum allowable immediately, both to the Santa Fe office of the Commission and the appropriate district proration office.

In order that the allowable assigned to the project may be kept current, and in order that the operator may fully benefit from the allowable provisions of Rule 701, it behooves him to promptly notify both of the aforementioned Commission offices by letter of any change in the status of wells in the project area, i.e., when

Case # 215

Mr. A. J. Losee
Attorney at Law
P. O. Drawer 239
Artesia, N. M.

Dear Mr. Losee:

Reference is made to the application of International Oil and Gas Corporation to the Oil Conservation Commission for a secondary recovery project.

On the schematic diagrams for the two wells, it is noted that the top of the cement surrounding the 8 5/8 inch casing is calculated to be at 150 feet in each well and that the fill-up from the point at which the casing was set is considerably different. Please advise me as to the basic data and the formula used in calculating the cement tops.

Yours truly,

S. E. Reynolds
State Engineer

DOCKET: EXAMINER HEARING - WEDNESDAY - FEBRUARY 24, 1965

9 A. M. - OIL CONSERVATION COMMISSION CONFERENCE ROOM,
STATE LAND OFFICE BUILDING - SANTA FE, NEW MEXICO

The following cases will be heard before Elvis A. Utz, Examiner, or Daniel S. Nutter, Alternate Examiner:

- CASE 2942: (Reopened and continued from the February 10, 1965 Examiner Hearing)
In the matter of Case No. 2942 being reopened pursuant to the provisions of Order No. R-2645, which order established temporary 160-acre spacing and fixed well locations for the Simanola-Pennsylvanian Pool, Lea County, New Mexico, for a period of one year. All interested parties may appear and show cause why said pool should not be developed on 40-acre spacing units.
- CASE 3195: (Continued from the January 27, 1965 Examiner Hearing)
Application of H & M Oil Company, et al for a waterflood project, Eddy County, New Mexico. Applicants, H. & M Oil Company, Kincaid & Watson, N. E. Salsich, Jr., and Kersey, seek authority to institute a waterflood project in the Square Lake Pool by the injection of water into the Grayburg and San Andres formations through six injection wells in Section 1, Township 17 South, Range 29 East, and one injection well in Section 6, Township 17 South, Range 30 East, Eddy County, New Mexico.
- CASE 3198: (Continued from the January 27, 1965 Examiner Hearing)
Application of Texaco Inc. for an amendment of Order No. R-2758, San Juan County, New Mexico. Applicant, in the above-styled cause, seeks an amendment to Rules 6 and 8 of Order No. R-2758, which order promulgated special pool rules for the Tocito Dome-Pennsylvanian "D" Pool, San Juan County, New Mexico. Applicant seeks a 160-acre proportional factor for said pool of 4.77 rather than a factor of 2.77 as previously established by the Commission.
- CASE 3210: Application of Monsanto Company for the creation of a new oil pool and for special pool rules, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks the creation of a new oil pool for Upper Pennsylvanian production for its Monsanto-Hondo Well No. 1 located in Unit C of Section 31, Township 19 South, Range 25 East, Eddy County, New Mexico, and for the promulgation of special pool rules for said pool, including a provision for 160-acre spacing.
- CASE 3211: Application of Archie M. Speir for a unit agreement, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks approval of the South Red Lake Grayburg Unit Area comprising 1442 acres, more or less, of State and Federal lands in Sections 35 and 36, Township 17 South, Range 27 East, and in Sections 1 and 2, Township 18 South, Range 27 East, Eddy County, New Mexico.
- CASE 3212: Application of Archie M. Speir for a waterflood project, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks authority to institute a waterflood project in the Red Lake Pool by the injection of water into the Premier San-Grayburg formation through 18 injection wells in Sections 35 and 36, Township 17 South, Range 27 East, and in Sections 1 and 2, Township 18 South, Range 27 East, Eddy County, New Mexico.

February 24, 1965 Examiner Hearing

CASE 3213: Application of International Oil & Gas Corporation for a waterflood project, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks authority to institute a waterflood project in the Artesia Pool by the injection of water into the Grayburg and Queen formations through two injection wells in Sections 25 and 36, Township 17 South, Range 28 East, Eddy County, New Mexico.
