Gentlemen:

Reference is made to your applications submitted on June 29, 1966 to the Oil Conservation Commission seeking approval for a unit and waterflood project in the Hardy Area of the Eumont pool and a waterflood project in your SEMU-Eumont Lease in cooperation with the proposed Eumont Hardy unit.

Please furnish me an analysis of the injection water to be used from the Cass-Pennsylvanian pool and an analysis of the water from the E-M-E Salt Water Disposal System. Also please advise me as to whether produced water from this project will be reinjected as it becomes available.

Attention of Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen: Re: Applications for Unit and Waterflood  
Approval - Hardy Area of Eumont Pool

Forwarded herewith is an application in triplicate for approval of the unit agreement, authority to install a waterflood project, and approval of a central tank battery for the proposed Eumont Hardy Unit located in T20S, R37 & 38E, and T21S, R36 & 37E, Lea County, New Mexico. Also enclosed is an application for authority to install a waterflood on our SEMU-Eumont Lease in Section 25, T20S, R37E. These two matters are for the installation of one waterflood project for the area which was previously designated the Hardy Pool.

In order to avoid excessive bulk, only one of the applications is complete with unit agreement and schematic diagrams of 28 injection wells for the Eumont Hardy Unit. Additional copies of the material will be presented at the hearing.

It would be appreciated if you would place these matters on your July 20 docket for Examiner Hearing.

Yours very truly,
