Gentlemen:

There is enclosed in triplicate application of J. J. Travis for approval of the North Shugart Queen Unit Agreement which we would like to have set down on the examiner's docket for the first examiner's hearing in November, which we assume will be on November 12. Copies of the unit agreement are being run offi and we still lack Exhibit "A" to be attached thereto, and consequently, we will file 3 copies of the unit agreement with you just as soon as this is completed.

Under the terms of the unit agreement only 200 feet below the top of the Queen formation will be unitized which consists of the wells producing from the North Shugart Queen Pool. The unit is for the purpose of conducting a waterflood project and Mr. Travis in the process of getting up the necessary plat to show the water injection wells and diagrammatic sketches, etc. of the wells. We would like for you to include on the same docket an application of J. J. Travis for approval of a waterflood project for the proposed North Shugart Queen Unit Area as to the above mentioned formation. If you need to include in the notice the number and location of the injection wells which are to be used, please let me know as I can obtain this information from Mr. Travis over the phone and give it to you over the phone.

We would like to have these on the same docket so that the two cases can be consolidated for the purpose of taking the testimony.

Yours sincerely,

HINKLE, BONDURANT & CHRISTY
