IN REPLY REFER TO:

UNITED STATES
DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY
FEDERAL CENTER, DENVER, COLORADO 80225

Mr. Randolph M. Richardson
P.O. Box 819
Roswell, New Mexico 88201

Dear Mr. Richardson:

Your application of June 27, filed with the Area Oil and Gas Supervisor, Roswell, New Mexico, on July 6, in behalf of Mr. W. T. Wynn, requests the designation of the Kaiser Lake unit area embracing 960.16 acres, more or less, Eddy County, New Mexico, as logically subject to exploration and development under the unitization provisions of the Mineral Leasing Act, as amended.

Pursuant to unit plan regulations of December 20, 1950, 30 CFR 226.3 (1968 reprint) the land requested as outlined on your plat marked "Kaiser Lake Unit Area, Eddy County, New Mexico, Exhibit A," is hereby designated as a logical unit area.

The unit agreement submitted for the area designated should provide for the drilling of the initial exploratory well to test the Abo formation or to a depth of 6,300 feet. As proposed by your application, the form of agreement for unproved areas (1968 reprint) should be used and modified to apply to fee lands and Federal lands under the jurisdiction of the Bureau of Reclamation.

In the absence of any other type of land requiring special provisions or any objections not now apparent, a duly executed agreement identical to the 1968 reprint, modified only as outlined above, will be approved if submitted in approvable status within a reasonable period of time. However, the right is reserved to deny approval of any executed agreement which, in our opinion, does not have full commitment of sufficient lands to afford effective control of operations in the unit area.

When the executed agreement is transmitted to the Supervisor for approval, include the latest status of all acreage. The format of the

sample exhibits attached to the 1968 reprint of the standard form should be followed closely in the preparation of exhibits A and B.

Sincerely yours,

ORIN S. G. & H. HORN
