Attention: Mr. John E. Lodge

Re: Designation of Successor Unit Operator  
Citgo Empire Abo Unit  
Eddy County, New Mexico

Dear Mr. Lodge:

This office is in receipt of a designation of successor unit operator, wherein Oxy USA, Inc. has resigned as unit operator of the Citgo Empire Abo Unit and designated Atlantic Richfield Company as the successor unit operator of the Citgo Empire Abo Unit Area, Eddy County, New Mexico.

The Commissioner of Public Lands has this date approved the resignation of Oxy, USA, Inc. and the designation of Atlantic Richfield Company as the successor unit operator of this unit. This change in operators is effective September 1, 1993. In accordance with this approval, Atlantic Richfield Company is now responsible for all operations and the reporting of all production from the unit.

Please be advised that since we are unable to approve the unit name change to the Riverwolf Unit, these documents are accepted for record and have been filed in our "Citgo Empire Abo Unit" agreement file.

1990 Plan of Development

Dear Mr. Vitrano:

The Commissioner of Public Lands this date approved the 1990 Plan of Development for the Citgo Empire Abo Unit. Our approval is subject to like approval by all other appropriate agencies. Please forward to this office current copies of both Exhibits A & B.

The possibility of drainage by wells outside of the Unit Area and the need for further development may exist. You will be contacted at a later date regarding these possibilities.

If we may be of further help, please do not hesitate to contact Clyde Langdale at (505) 827-5791.

RE: Citgo Empire Abo Unit

Gentlemen:

In compliance with section 10 of the Unit Agreement, Citgo Empire Abo Unit, Eddy County, New Mexico, OXY USA Inc. as Unit Operator hereby submits for your approval a Plan of Operation beginning January 1, 1990, and extending through December 31, 1990.

Sincerely yours,

## Citgo Empire Abo Unit

### 1990 Plan of Operation

#### 1.) Summary of Proposed Plan of Operation for 1990

Oxy USA Inc. as operator of the Citgo Empire Abo Unit, Eddy County, New Mexico, proposes to continue operation of the unit in 1990 substantially the same as in recent years. We will produce oil from the lowest gas-oil ratio wells to maximize efficiency, sell as much residue gas as our reservoir voidage limit will allow, and re-inject all remaining residue gas.

#### 2.) Project Area - Description, History, and Performance

The Citgo Empire Abo Unit consists of 361.06 acres in Eddy County, New Mexico. The area is located in portions of Section 35, T-17-S, R-27-E, and Section 2, T-18-S, R-27-E. In December 1989, the Unit averaged 12 BOPD and 1 BWPD with a gas-oil ratio of 100,260 cubic feet of gas per barrel of oil. The unit was unitized in June 1974, with gas injection beginning in June 1975. A natural gas liquids extraction operation was initiated in January 1977 and was suspended in December 1986 due to low product prices.

#### 3.) Discussion of Operations

The unit will inject any gas not sold into the Abo gas cap through one injection well located on the north end of the unit. All available residue gas that is not sold is injected into the Abo gas cap through this well. Since the shut down of the natural gas liquids plant, the unit picks up the gas from the unit separators at 50 psi and compresses it to 1600 psi for injection. There are no plans at this time to do any remedial work on the Citgo Empire Abo Unit. We plan to produce the lowest GOR wells, sell as much residue gas as our reservoir voidage limit will allow, and inject all remaining residue gas.

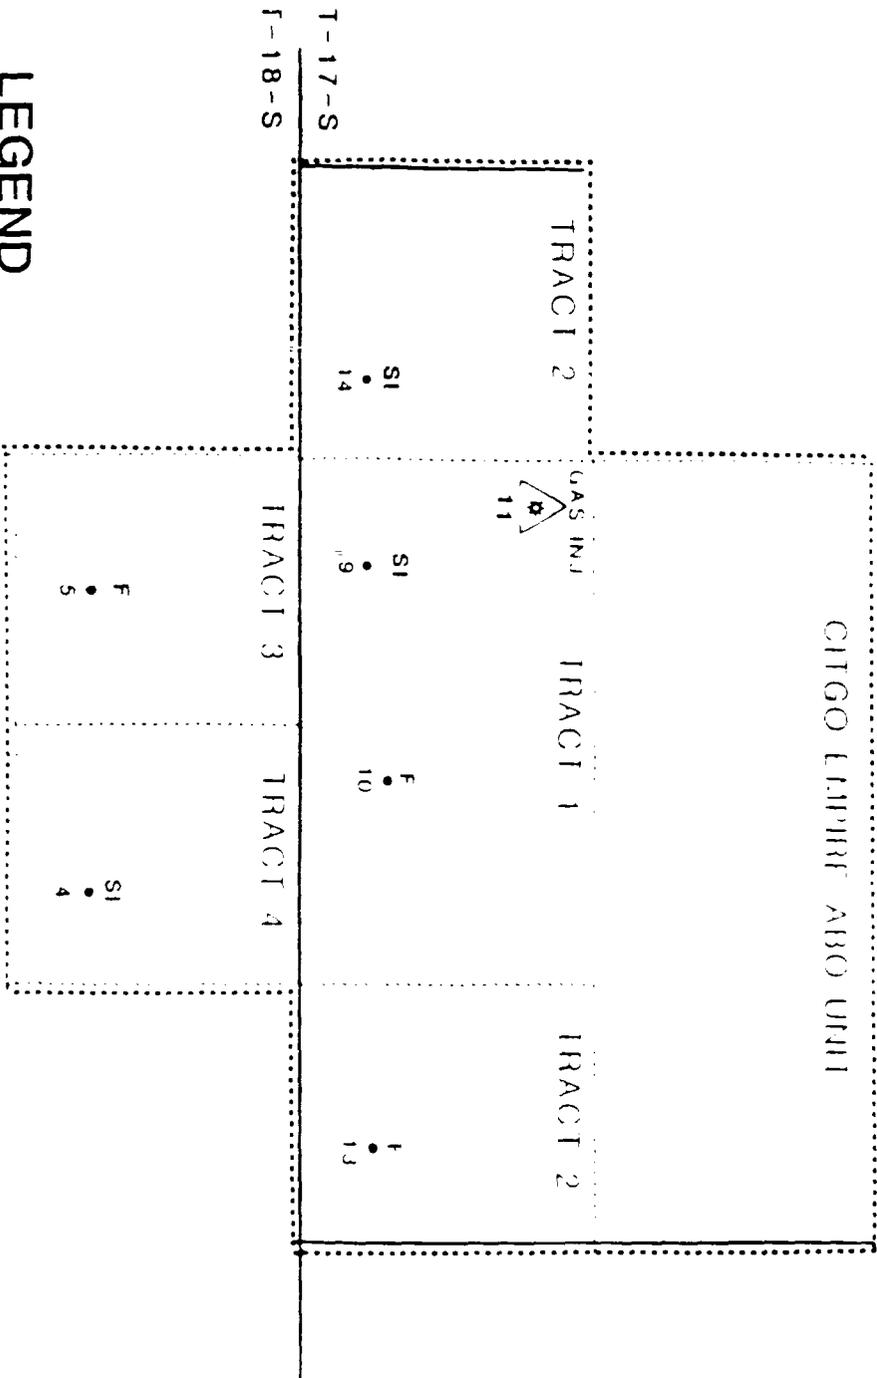

#### 4.) Modifications

This plan of operation may be modified to meet any changing conditions at any time with the approval of the Bureau of Land Management, the Commissioner of Public Lands of the State

of New Mexico, and the New Mexico Oil Conservation Division. Oxy USA Inc., as Unit operator, will preserve all rights of the mineral owners, and will efficiently attempt to recover all recoverable Unit area reserves.

5.) Effective Date and Duration of Plan

This plan of operation shall be effective January 1, 1990 and extend through December 31, 1990 unless otherwise amended.

Citgo Empire Abo Unit  
1989 Plan of Operation

1.) Summary of Proposed Plan of Operation for 1989

Oxy USA Inc. as operator of the Citgo Empire Abo Unit, Eddy County, New Mexico, proposes to continue operation of the unit in 1989 substantially the same as in recent years. We will produce oil from the lowest gas-oil ratio wells to maximize efficiency, sell as much gas as our reservoir voidage limit will allow, and re-inject all remaining gas.

2.) Project Area - Description, History, and Performance

The Citgo Empire Abo Unit consists of 361.06 acres in Eddy County, New Mexico. The area is located in portions of Section 35, T-17-S, R-27-E, and Section 2, T-18-S, R-27-E. In December 1989, the Unit averaged 8 BOPD and 1 BWPD with a gas-oil ratio of 21,750 cubic feet of gas per barrel of oil. The unit was unitized in June 1974, with gas injection beginning in June 1975. A natural gas liquids extraction operation was initiated in January 1977 and was suspended in December 1986 due to low product prices.

3.) Discussion of Operations

The unit currently injects all gas in excess of the reservoir voidage limit into the Abo gas cap through one injection well located on the north end of the unit. All available residue gas is injected into the Abo gas cap through this well. Since the shut down of the natural gas liquids plant, the unit picks up the gas from the unit separators at 50 psi and compresses it to 1600 psi for injection. There are no plans at this time to do any remedial work on the Citgo Empire Abo Unit. We plan to produce the lowest GOR wells, sell as much gas as our reservoir voidage limit will allow, and inject all remaining gas.

4.) Modifications

This plan of operation may be modified to meet any changing conditions at any time with the approval of the Bureau of Land Management, the Commissioner of Public Lands of the State of New Mexico, and the New Mexico Oil Conservation Division. Oxy USA Inc., as Unit operator, will preserve all rights of the mineral owners, and will efficiently attempt to recover all recoverable Unit area reserves.

5.) Effective Date and Duration of Plan

This plan of operation shall be effective January 1, 1989 and extend through December 31, 1989 unless otherwise amended.

RE: Citgo Empire Abo Unit  
Pressure Maintenance Project  
Empire Abo Pool

Gentlemen:

Attached is the October, 1976 monthly report for the Citgo Empire Abo Unit. The October production was 6522 Barrels of Oil, a daily rate of 210 BOPD. The October production voided the reservoir by 1876 RVB/day.

Cities Service is requesting a December, 1976 allowable of 6851 barrels of oil or 221 BOPD. The requested allowable will void the reservoir by 2191 RVB/day.

Sincerely yours,

Robert H. Johnson, Jr.  
Petroleum Engineer

CERTIFICATION--DETERMINATION

Pursuant to the authority vested in the Secretary of Interior, under the act approved February 25, 1920, 41 Stat. 437, as amended, 30 U. S. C. secs. 181, et seq., and delegated to the Area Oil and Gas Supervisors of the Geological Survey, I do hereby:

A. Approve the attached agreement for the development and operation of the Citgo Empire Abo Unit Area, State of New Mexico.

B. Certify and determine that the unit plan of development and operation contemplated in the attached agreement is necessary and advisable in the public interest for the purpose of more properly conserving the natural resources.

C. Certify and determine that the drilling, producing, rental, minimum royalty, and royalty requirements of all Federal leases committed to said agreement are hereby established, altered, changed, or revoked to conform with the terms and conditions of this agreement.

Dated July 23, 1974.

CITGO EMPIRE ABO UNIT  
EDDY COUNTY, NEW MEXICO

WHEREAS, under date of February 1, 1974, the parties of interest entered into a Unit Agreement for the development and operation of the Citgo Empire Abo Unit, Empire Abo Pool, Eddy County, New Mexico, insofar as the Abo Formation or Unitized Formation is defined in said Unit Agreement, and covering the following described lands, to-wit:

SW/4 SE/4, SE/4 SW/4, SW/4 SW/4, NE/4 SW/4, N/2 SE/4,  
SE/4 SE/4 Section 35, T-17-S, R-27-E and Lot 3 (NE/4 NW/4),  
Lot 2 (NW/4 NE/4) Section 2, T-18-S, R-27-E, Eddy County,  
New Mexico; and

WHEREAS, said lands were unitized for the purpose of development and operation of the Abo Formation, including operations for secondary recovery, and Cities Service Oil Company, Tulsa, Oklahoma, is designated in said Unit Agreement as the Unit Operator; and

WHEREAS, said Unit Agreement was approved by the Commissioner of Public Lands of the State of New Mexico, by Certificate of Approval, dated April 11, 1974; and

WHEREAS, said Unit Agreement was approved by the Oil Conservation Commission of the State of New Mexico, under date of May 28, 1974, in Case No. 5212, by Order No. R-4791; and

WHEREAS, said Unit Agreement has been approved by the United States Geological Survey on July 23, 1974, and designated No. 14-08-0001 14166.

NOW THEREFORE, said Cities Service Oil Company, as Unit Operator of said Citgo Empire Abo Unit, declared said Unit to be effective as of 7:00 a.m. August 1, 1974, and for the purpose of complying with Article 22 of said Unit Agreement does hereby certify that said Unit Agreement did become effective according to its terms as of the time and date herein specified.

Re: Citgo Empire Abo Unit  
Eddy County, New Mexico

ATTENTION: Mr. J. C. Williams

Gentlemen:

The Commissioner of Public Lands has this date given final approval to your Citgo Empire Abo Unit, Eddy County, New Mexico. This approval is subject to like approval by the United States Geological Survey.

Enclosed are five (5) Certificates of approval. We are sending a copy of this letter as well as a copy of the Certificate to the United States Geological Survey.

Please advise this office when the USGS approves this unit so that we may finish processing the agreement and ascertain the effective date.

Very truly yours,

RAY D. GRAHAM, Director  
Oil and Gas Department
