Re: **Notice of Termination**
Parks State Unit
Roosevelt County, New Mexico

Dear Mr. Benoit:

A review of the Parks State Unit reveals the following:

1. The Unit Agreement was approved on March 18, 1993, effective this same date.
2. The Parks State Unit Well No. 1 was spudded on April 22, 1993. This well was completed as a dry hole on June 7, 1993.
3. Section 8 of the Unit Agreement provides for the unit operator to continue drilling diligently, one well at a time, allowing not more than six months between the completion of one well and the beginning of the next well, until a well capable of producing unitized substances in paying quantities is completed to the satisfaction of the Commissioner or until it is reasonably proven to the unit operator that the unitized land is incapable of producing unitized substances in paying quantities in the formation drilled.
4. The second unit well was due to be drilled on or before January 7, 1994. Our records reflect that the second unit well was never drilled.

Parks State Unit
February 2, 1994
Page 2

5. State Lease No. V-3513 which was committed to this unit was voluntarily released on January 18, 1994.

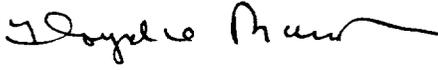

In view of the above, please be advised that the Parks State Unit Agreement has this date been terminated by its own terms effective January 7, 1994, being six months from the completion date of the Parks State Unit Well No. 1.

Please advise all interested parties of this action.

If you have any questions, or if we may be of further help, please contact Pete Martinez at (505) 827-5791.
