OIL CONSERVATION DIVISION	
<del>MARB</del>	EXHIBIT NO. <u>6</u>
CASE NO.	<u>10810</u>

RE: Burch-Keely Unit  
Loco Hills Area  
Eddy County, New Mexico

Gentlemen:

Marbob Energy Corporation operates shallow oil wells on seven adjoining federal leases west of Loco Hills. We have applied to the Bureau of Land Management that these leases be joined into a unit for secondary recovery purposes. The BLM has reviewed the material and designated these leases as a logical unit area. We have submitted to all of the working interest owners the Unit Agreement for their signatures. The working interest owners are common to all the leases and feel that this unit will facilitate the best future development of these leases. Enclosed you will find a copy of the Unit Agreement. As an overriding royalty owner, we would request that you execute the enclosed Consent and Ratification form. Please sign in the presence of a notary and return three originals in the stamped return envelope to us. If in reviewing the material you have any questions, please contact me.

If you have any objections to this unit, please advise our office and the Bureau of Land Management in writing at the following address within 15 days of your receipt of this letter:

Bureau of Land Management  
Attention: Mr. Armando Lopez  
1717 West Second Street  
Roswell, New Mexico 88201

Additionally, this unit will be submitted to the Oil Conservation Division at a hearing

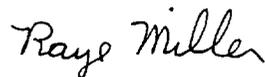

on August 26, 1993 for statutory unitization. Parties appearing in these cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing. If you have any objections to this unit, you can appear before the OCD on that date or submit your written objection to the following:

Oil Conservation Division  
Attention: Mr. Bill LeMay  
P. O. Box 2088  
Santa Fe, New Mexico 87504

We anticipate spending over 25 million dollars in developing these leases in the next several years. We feel that significant additional reserves will be added to these leases and that production will continue well beyond the year 2000. Payment of your override will continue to be paid directly to you from Phillips Petroleum Company for the oil sales from the unit and GPM for the gas sales. Your interest will be paid in accordance with the Unit Agreement as set out in Schedules B and C.

Again, let me reiterate to you that if you have any questions regarding the unit we would be happy to try to answer them for you. Please return the executed Consent and Ratification Forms to us at your earliest convenience. Thank you for your help in this matter.

Sincerely,

Raye Miller

RE: Burch-Keely Unit  
Loco Hills Area  
Eddy County, New Mexico

Dear Ms. Purcell:

Marbob Energy Corporation operates shallow oil wells on seven adjoining federal leases west of Loco Hills. We have applied to the Bureau of Land Management that these leases be joined into a unit for secondary recovery purposes. The BLM has reviewed the material and designated these leases as a logical unit area. We have submitted to all of the working interest owners the Unit Agreement for their signatures. The working interest owners are common to all the leases and feel that this unit will facilitate the best future development of these leases. Enclosed you will find a copy of the Unit Agreement. As an overriding royalty owner, we would request that you execute the enclosed Consent and Ratification form. Please sign in the presence of a notary and return three originals in the stamped return envelope to us. If in reviewing the material you have any questions, please contact me.

If you have any objections to this unit, please advise our office and the Bureau of Land Management in writing at the following address within 15 days of your receipt of this letter:

Bureau of Land Management  
Attention: Mr. Armando Lopez  
1717 West Second Street  
Roswell, New Mexico 88201

Additionally, this unit will be submitted to the Oil Conservation Division at a hearing on August 26, 1993 for statutory unitization. Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially

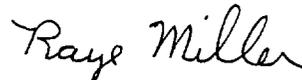

in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing. If you have any objections to this unit, you can appear before the OCD on that date or submit your written objection to the following:

Oil Conservation Division  
Attention: Mr. Bill LeMay  
P. O. Box 2088  
Santa Fe, New Mexico 87504

We anticipate spending over 25 million dollars in developing these leases in the next several years. We feel that significant additional reserves will be added to these leases and that production will continue well beyond the year 2000. Payment of your override will continue to be paid directly to you from Phillips Petroleum Company for the oil sales from the unit and GPM for the gas sales. Your interest will be paid in accordance with the Unit Agreement as set out in Schedules B and C.

Again, let me reiterate to you that if you have any questions regarding the unit we would be happy to try to answer them for you. Please return the executed Consent and Ratification Forms to us at your earliest convenience. Thank you for your help in this matter.

Sincerely,

Raye Miller
