IN THE MATTER OF THE APPLICATION
OF NEARBURG PRODUCING COMPANY FOR
DOWNHOLE COMMINGLING, EDDY COUNTY,
NEW MEXICO.

Case No. 8847

AMENDED APPLICATION

Comes now, NEARBURG PRODUCING COMPANY, by and through its undersigned attorneys, and hereby makes application to the New Mexico Oil Conservation Division for approval of downhole commingling of production from the Atoka and Morrow formations, Eddy County, New Mexico, and in support thereof states:

1. Applicant is the operator of the Osage-Boyd Com No. 1 Well located 1980 feet from the North line and 660 feet from the West line of Section 15, Township 19 South, Range 25 East, N.M.P.M., Eddy County, New Mexico.

2. The Osage-Boyd Com No. 1 Well was drilled in December, 1984 and completed in the Morrow formation.

3. It was subsequently discovered that the uppermost perforations in the subject well were in the Atoka formation, as that formation is defined by the Oil Conservation Division.

4. Applicant therefore seeks approval for downhole commingling of Atoka and Morrow formation production in the wellbore of its Osage-Boyd Com No. 1 Well.

5. The ownership is common in the Atoka and Morrow formations in the subject well.

6. Granting this application will result in the most efficient production of hydrocarbons from the subject well and will not damage the reservoirs involved.

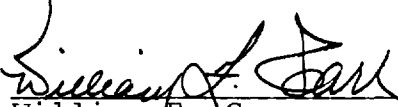

7. Granting this application will be in the best interest of conservation, the prevention of waste, and the protection of correlative rights.

WHEREFORE, Nearburg Producing Company requests that this matter be reset for hearing before a duly appointed Examiner of the Oil Conservation Division on March 19, 1986, and that after notice and hearing as required by law, the Division enter its order granting the application.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
