Dear Mr. LeMay:

Exxon Corporation requests extension of the May 1, 1989 required date for commencement of drilling operations pursuant to NMOCD Order No. R-8790 to June 1, 1989. This extension is requested due to delays permitting the well for drilling. We hope to receive NMOCD approval to drill the captioned well this week. As Exxon wishes to competitively bid drilling of this well, additional time is needed to give drilling contractors flexibility for rig scheduling. Please call Bill Duncan at 915/688-7538 if you need any additional information concerning this request.

Sincerely,

RDG:dkr

Dear Mr. LeMay:

Exxon Corporation requests extension of the March 1, 1989 required date for commencement of drilling operations pursuant to NMOCD Order No. R-8790 to May 1, 1989. This extension is requested due to delays Exxon has encountered in permitting the well for drilling within the oil-potash area covered under NMOCD Order R-111-P. Our Bill Duncan discussed this situation with David Catanach on February 2, 1988. Please call Bill at 915/688-7538 if you need any additional information concerning this request.

Sincerely,

RDG:dkr

Attention: Charlotte Harper

RE: Provisions of Division Order No. R-8790. Administrative Application for an unorthodox location. New Mexico "FH" State Com Well No. 1; 980 FNL - 1420 FWL, 32-T20S-R33E, Lea County, New Mexico.

Dear Ms. Harper:

I am in receipt of your letter to our Hobbs District Office concerning the subject filing, however, that information is insufficient for the Santa Fe office to approve this location. Please make a proper filing with this office pursuant to the requirements of General Rule 104.F.

Such a filing shall include:

1. Adequate geological data;
2. Adequate proof notice; and
3. An ownership plat showing these offsets and designated acreage for those zones which will be spaced on units smaller than 320-acres.

If you should have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner
