*RE: Division Case No. 10854; Application
of Phillips Petroleum Company for a
Special Oil Allowable in the Cabin
Lake-Delaware Pool, Eddy County, New
Mexico.*

Dear Mr. Kellahin:

Reference is made to my letter dated November 3, 1993, see copy attached, in which I requested supplemental information needed to complete the record in this matter.

After further consideration it is our conclusion that the hearing process would best be served if this supplemental data were submitted formally to the Division as an "exhibit". Therefore Case 10854 shall be Reopened at the December 16, 1993 Examiner Hearing to allow Phillips Petroleum Company to present this data into evidence.

Should you have any questions or comments concerning this matter, please contact the Division's Counsel, Mr. Robert G. Stovall, in Santa Fe at (505) 827-5805.

Thank you for your assistance, consideration, and cooperation in this matter.

Sincerely,

Dear Mr. Kellahin

After my initial review of the exhibits and transcripts in this matter I find that I am still somewhat confused about the number of completions and to what depths they were perforated.

I find it necessary to request a listing of all wells that were ever completed in the subject pool. Please show for each well its operator, location (U-S-T-R), total depth, perforated intervals, current well status and tops of the Cherry Canyon member, Brushy Canyon member and if applicable the Bone Spring formation.

With this delay, you may want to provide a rough draft order that includes this additional information.

Thank you for your assistance.

Sincerely,
