Re: Application of Mewbourne Oil Company for Compulsory Pooling and an
Unorthodox Gas Well Location, Eddy County, New Mexico

Dear Mr. Lodge:

This letter is to advise you that Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division seeking the force pooling of all mineral interests in all formations from 500 feet below the top of the San Andres formation to the base of the Morrow formation, in and under certain described spacing units in the S/2 of Section 20, Township 18 South, Range 28 East, N.M.P.M., Eddy County, New Mexico. Mewbourne Oil Company proposes to dedicate the referenced pooled unit to the Chalk Bluff Draw Prospect Illinois Camp "20" State No. 2 Well, which will be drilled at an unorthodox gas well location 1650 feet from the South line and 990 feet from the East line of Section 20, to test all formations in this pooled interval to the base of the Morrow formation, North Illinois Camp-Morrow Gas Pool.

This application has been set for hearing before a Division Examiner on April 28, 1994. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, or otherwise affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.
