Dear Rand:

A L Dawsey received the certified letter directing him to P&A or TA the above wells within 30 days. We have had no response from the operator as to his intentions for the wells.

Please docket a case calling A L Dawsey, First National Bank of Albuquerque and all other interested parties to appear and show cause why the El Vado #1, located 610' FSL, 2000' FWL of 11-27N-01E and the El Vado #2 located 1770' FSL, 970" FEL of 11-27N-01E should not be plugged and abandoned according to a Division approved plugging program.

The First National Bank of Albuquerque held bonds SCB #2 and SCB #3 (CD301117209) but as I understand it they released these bonds without OCD approval.

Sincerely,

Re: Elvado #1 N-11-27N-1E  
Elvado #2 I-11-27N-1E

Dear Mr. Dawsey:

A recent field inspection reveals that the referenced wells have been drilled. You have not filed spud notices and sundry reports on casing and cementing operations, in violation of Rule 1103.

The inspection also revealed that you drilled the wells without adequate pits and mud apparently ran down hillside unchecked during drilling operations, in violation of Rule 105. You also have an unreported oil spill at the Elvado #1, in violation of Rule 116.

You are hereby directed to suspend all drilling, completion and production operations until delinquent reports have been filed, oil and mud spills have been cleaned up, and until further notice from this office. Failure to comply will result in a case being called for A.L. Dawsey and all other interested parties to appear and show cause why the Elvado #1 and the Elvado #2, should not be plugged and abandoned in accordance with Division approved plugging programs and possible fines. We also require copies of any logs and temperature surveys.

If you have any questions, you may call me at 505-334-6178.

BY THE OIL CONSERVATION DIVISION FOR  
THE PURPOSE OF CONSIDERING:

CASE NO. 8990  
Order No. R-8314

APPLICATION OF A. L. DAWSEY, JR. FOR  
AN UNORTHODOX OIL WELL LOCATION, RIO  
ARRIBA COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

RECEIVED  
SEP 24 1986  
OIL CON. DIV.  
DIST. 3

BY THE DIVISION:

This cause came on for hearing at 8:15 a.m. on September 17, 1986, at Santa Fe, New Mexico, before Examiner David R. Catanach.

NOW, on this 22nd day of September, 1986, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS THAT:

- (1) Due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.
- (2) The applicant, A. L. Dawsey, Jr., seeks approval of an unorthodox oil well location 1770 feet from the South line and 970 feet from the East line of Section 11, Township 27 North, Range 1 East, NMPM, to test the Mancos formation, Undesignated East Puerto Chiquito-Mancos Oil Pool, Rio Arriba County, New Mexico.
- (3) The SE/4 of said Section 11 is to be dedicated to the well.
- (4) Geologic evidence presented by the applicant at the hearing indicated that a well at said unorthodox location would encounter the natural fracture system within the Mancos formation, thereby better enabling the applicant to produce the oil underlying the proration unit.
- (5) No offset operator objected to the proposed unorthodox location.

1770's  
970/E

(6) Approval of the subject application will afford the applicant the opportunity to produce its just and equitable share of the oil in the affected pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED THAT:

(1) The application of A. L. Dawsey, Jr. for an unorthodox oil well location for the Mancos formation is hereby approved for a well to be located at a point 1770 feet from the South line and 970 feet from the East line of Section 11, Township 27 North, Range 1 East, NMPM, Undesignated East Puerto Chiquito-Mancos Oil Pool, Rio Arriba County, New Mexico.

(2) The SE/4 of said Section 11 shall be dedicated to the above-described well.

(3) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

Dawsey and all other interested parties to appear and show cause why the El Vado #1, located 610 FSL and 2000 FWL Section 11-T27N-R01E and El Vado #2, located 1770 FSL and 970 FEL Section 11-T27N-R01E, both in Rio Arriba County, should not be plugged and abandoned in accordance with a Division approved plugging program. Cash bonds are held by First National Bank of Albuquerque.

These wells were drilled to unreported depths in 1986. Both wells are apparently cased. Neither well has sold hydrocarbons. A field trip on 10-5-90 indicates no recent activity. A certified letter to A. L. Dawsey at our last address of record was returned Forwarding Order Expired.

Dear Mr. Dawsey:

A recent field inspection reveals that the referenced wells have been drilled. You have not filed spud notices and sundry reports on casing and cementing operations, in violation of Rule 1103.

The inspection also revealed that you drilled the wells without adequate pits and mud apparently ran down hillside unchecked during drilling operations, in violation of Rule 105. You also have an unreported oil spill at the Elvado #1, in violation of Rule 116.

You are hereby directed to suspend all drilling, completion and production operations until delinquent reports have been filed, oil and mud spills have been cleaned up, and until further notice from this office. Failure to comply will result in a case being called for A.L. Dawsey and all other interested parties to appear and show cause why the Elvado #1 and the Elvado #2, should not be plugged and abandoned in accordance with Division approved plugging programs and possible fines. We also require copies of any logs and temperature surveys.

If you have any questions, you may call me at 505-334-6178.

Know all men by these presents that A. L. Dawsey  
(an individual) (~~corporation~~) (~~partnership~~) organized  
in the State of \_\_\_\_\_ with its principal office at 9451 IBJ Freeway,  
St. 210 in the city of Dallas, State of Texas 75243  
and authorized to do business in the State of New Mexico) is held and firmly bound to  
the Oil Conservation Division of the State of New Mexico (or its successor agency) in  
the sum of \$ 5,000.00 (FIVE THOUSAND DOLLARS), lawful money of  
the United States.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

The above applicant/operator desires to drill a well or purchase or operate an  
existing well, the depth of which does not exceed 5,000 feet, to  
prospect for and produce oil, gas, or carbon dioxide resources on land owned by  
private individuals or the State of New Mexico, the particular identification and  
footage location of said well being as follows: 1770 Ft. FSL and 970 Ft. FEL  
in Section 11, Township  
27 N, Range 1 E, NMPM, ~~Rio Arriba~~ County, New Mexico.

The applicant has deposited on behalf of the Division \$ 5,000.00, in the manner  
indicated on the attachment to this bond being the principal sum intended to be  
secured. Applicant pledges this sum as a guarantee that it, its executors, assigns,  
heirs or administrators shall plug the well described above if dry, or when abandoned,  
in accordance with the rules and orders of the Oil Conservation Division of the State  
of New Mexico in such way as to confine the oil, gas, and water in the strata in which  
they are found, and to prevent same from escaping to other strata. If the applicant  
does not so properly plug and abandon said well upon order of the Division, the total  
sum of the bond shall be forfeited to the Division, and such amount as is necessary  
may be used to properly plug said well. If the principal sum of this bond is less  
than the actual cost incurred by the Division in plugging said well, the applicant,  
its successors, assigns, heirs or administrators shall be liable under the provisions  
of Section 70-2-38 NMSA (1978) of the Oil and Gas Act, and the Division may take  
action, including the filing of legal proceedings, to recover any amounts expended  
over and above the principal sum of the bond.

NOW THEREFORE, if the above applicant or its successors, assigns, heirs, or  
administrators or any of them shall plug the above-described well when dry or  
abandoned, in accordance with the rules, regulations, and orders of the Division, in  
such a manner as to confine the oil, gas, and water in the strata in which they  
naturally occur, and to prevent them from escaping into other strata, and further to  
clean up the surface location of said well, then therefore, this obligation shall be  
null and void and the principal sum shall be paid to the applicant, or its successors,  
heirs, or administrator, otherwise it shall remain in full force and effect.
