Re: Elvado #1 N-11-27N-1E  
Elvado #2 I-11-27N-1E

Dear Mr. Dawsey:

A recent field inspection reveals that the referenced wells have been drilled. You have not filed spud notices and sundry reports on casing and cementing operations, in violation of Rule 1103.

The inspection also revealed that you drilled the wells without adequate pits and mud apparently ran down hillside unchecked during drilling operations, in violation of Rule 105. You also have an unreported oil spill at the Elvado #1, in violation of Rule 116.

You are hereby directed to suspend all drilling, completion and production operations until delinquent reports have been filed, oil and mud spills have been cleaned up, and until further notice from this office. Failure to comply will result in a case being called for A.L. Dawsey and all other interested parties to appear and show cause why the Elvado #1 and the Elvado #2, should not be plugged and abandoned in accordance with Division approved plugging programs and possible fines. We also require copies of any logs and temperature surveys.

If you have any questions, you may call me at 505-334-6178.

Yours truly,

El Vado #2, I-11-27N-01E, #30-039-24053

Dear Rand:

A L Dawsey received the certified letter directing him to P&A or TA the above wells within 30 days. We have had no response from the operator as to his intentions for the wells.

Please docket a case calling A L Dawsey, First National Bank of Albuquerque and all other interested parties to appear and show cause why the El Vado #1, located 610' FSL, 2000' FWL of 11-27N-01E and the El Vado #2 located 1770' FSL, 970" FEL of 11-27N-01E should not be plugged and abandoned according to a Division approved plugging program.

The First National Bank of Albuquerque held bonds SCB #2 and SCB #3 (CD301117209) but as I understand it they released these bonds without OCD approval.

Sincerely,

Johnny Robinson  
Deputy Oil & Gas Inspector
