CASE:_____ This matter shall be heard at a special examiner's hearing to be held on October 30, 2007 at the Division's hearing room, Santa Fe, New Mexico. Application of the Division upon its own motion to establish special rules and regulations governing the exploration and production of oil and gas within the coal mining area of San Juan County, New Mexico. Division proposes to consider the need to designate the following described area as "The Coal Mining Area" and to adopt special rules and regulations governing the exploration and production of oil and gas from this area including rules pertaining to well density, well location requirements, spacing units sizes, drilling and casing programs, and approved methods of completion, stimulation and production. In addition, the Division is also consider the establishment of a one mile buffer area surrounding "The Coal Mining Area" and the rules and regulations applicable thereto.

(add acreage description)

This area is located approximately 2 miles north of Kirkland, New Mexico
