7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Drilled 7-7/8" hole to total depth of 8,606' on 12-28-75. Ran electric logs. Based on electric logs and drill stem tests, well was determined to be non-commercial. After obtaining permission from New Mexico Oil Conservation Commission on 12-29-75, well was plugged as follows:

40 sx from 8606'-8500' across top of Lower Drinkard  
40 sx from 8190'-8090' across top of Drinkard  
40 sx from 6440'-6340' across top of Paddock  
40 sx from 4880'-4780' across top of San Andres  
40 sx from 4240'-4140' across 8-5/8" shoe at 4190'

Set 8-5/8" casing at 1,089' and pulled 28 jts and cutoff of 8-5/8" 24# K-55 ST&C. Spotted:  
75 sx from 1,227'-1,050' across 8-5/8" stub  
75 sx from 425'-325' across 13-3/8" shoe at 375'  
10 sx at surface

Fluid of 8.8 PPG (used to drill well) was spotted between all cement plugs. Installed dry hole marker. Plugging operations were completed 12-30-75.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

This form is to be filed with the appropriate District Office of the Commission not later than 20 days after the completion of any newly-drilled or reopened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 30 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

Attn: Gene Wentworth

Re: Hightower #1 Re-entry  
NE/4 NE/4 Section 4,  
T-17-S, R-37-E,  
Lea County, New Mexico

Gentlemen:

As you know, TXO Production Corp. has proposed the re-entering and deepening of the above-referenced well to test the Strawn formation. An AFE was circulated along with my letter of June 30, 1987. To date we have not had a written response from you on this proposal.

The Operating Agreement dated September 10, 1985 to which you are a party, covered Lot 1 and the SE/4 NE/4 Section 4, T-17-S, R-37-E and this Operating Agreement is being perpetuated by the Pennzoil B. E. Shipp Estate #1 well located in the SW/4 NE/4 Section 4. As you know, Pennzoil circulated a letter dated April 16, 1986 requesting the reduction of the contract area in the Operating Agreement dated September 10, 1985 to one 80-acre tract consisting of Lot 2 and the SW/4 NE/4 Section 4. TXO did not agree to this reduction of the contract area and further maintains the Operating Agreement dated September 10, 1985 is in full force and effect as to all of Lots 1, 2, S/2 NE/4 Section 4. A copy of TXO's letter dated May 7, 1986 to Pennzoil is attached.

Therefore, pursuant to Article VII.B.1. of the Operating Agreement dated September 10, 1985, TXO hereby proposes the re-entering and deepening of the Hightower #1 to test the Strawn formation. Total depth is estimated at 11,400' and an AFE is attached for your review. In accordance with the Operating Agreement dated September 10, 1985, you have 30 days after receipt of this proposal in which to elect to participate or be a non-consenting party. If Pennzoil, as Operator under the Operating Agreement dated September 10, 1985, elects to be a non-consenting party, TXO requests the consenting parties designate TXO as Operator for the proposed operation.

The anticipated procedure for this operation will be to use a completion unit to test the feasibility of re-entering the Hightower #1, prior to moving in a rotary rig. If the Hightower #1 proves incapable of being re-entered we will then evaluate the possibility of drilling a new well to test the Strawn. A new well would require a new well proposal, AFE, etc.

Hondo Oil and Gas Co.

Application of TXO Production Corp.  
for Compulsory Pooling and  
Directional Drilling  
Lea County, New Mexico

Dear Mr. Stogner:

As you recall, the above referenced case was heard before you on October 7, 1987. During the presentation of this case you requested the Oil Conservation Division be furnished with copies of the correspondence between TXO Production Corp. and Mr. Bill Seltzer. As you will recall, Mr. Seltzer did not receive notice of this case and as such the OCD has elected to continue this case insofar as it covers the interest of Mr. Bill Seltzer.

Enclosed for your review and files is a copy of my letter dated October 6, 1987 to Mr. Bill Seltzer, along with the Certified Mail return receipt. We will continue to discuss this well proposal with Mr. Seltzer in hopes that a voluntary agreement can be reached in the near future. Should an agreement be reached between the two parties we will notify the OCD and Mr. Seltzer's counsel immediately.

Please give me a call should you have any questions regarding this letter or our efforts with Mr. Bill Seltzer. Thank you for your assistance and cooperation.

Sincerely,

Re: Well Proposal  
Hightower #1 re-entry  
E/2 NE/4 Section 4,  
T-17-S, R-37-E,  
Lea County, New Mexico

Dear Mr. Seltzer:

As discussed recently over the telephone, TXO Production Corp. hereby proposes the re-entering and deepening of the Hightower #1 well to test the Strawn formation. The dedicated tract for this well will be the E/2 NE/4 Section 4, T-17-S, R-37-E, and the total depth is estimated to be 11,400'.

The drilling procedure will encompass a re-entry operation of the existing wellbore which was a dry hole drilled to a depth of approximately 8,600'. From that point we will attempt to drill directionally in a northeast direction so that the bottom hole location will be at a legal location at the furthestest point to the north and east from the existing wellbore. We plan to use a workover unit to test the feasibility of re-entering the existing wellbore prior to moving in the rotary rig. It is hoped that this procedure will save money should the existing wellbore not be re-enterable.

Enclosed for your review is an Authority for Expenditure for the proposed operation. We will be forwarding an Operating Agreement to you for your consideration. In the event that you do not wish to participate, TXO would be willing to accept a farmout as to your interest in which you would deliver TXO a 75% net revenue lease with an option to convert any retained overriding royalty interest to a 1/3 working interest at payout of the well. TXO would also be willing to discuss a sale of your leasehold interest in this 80 acre tract.

Please give me a call should you have any questions regarding this proposal, etc. Inasmuch as this well is in a competitive position with surrounding acreage we would appreciate your early attention to this well proposal. Thank you for your assistance and cooperation.

Sincerely,

David M. Hundley

Lea County, New Mexico

Dear Mr. Stogner:

As you know the above referenced case was heard before you on October 7, 1987, and has been continued until November 4, 1987 insofar as the case covers the interest of Mr. Bill Seltzer and Mr. Mark Hannifin. During the presentation of our evidence and testimony regarding this case you requested that TXO and the other parties make a genuine effort to reach a mutually satisfactory trade to obtain to obtain voluntary pooling of the opposing parties.

Attached please find copies of TXO's correspondence with Amerind Oil Company, Mr. Bill Seltzer, Pennzoil Company and Mr. Mark Hannifin. Pennzoil Company has chosen to accept our most recent offer and has forwarded a Farmout Agreement to TXO for review and execution. Please note in the attached letters that our most recent offer is an additional increase of the back-in percentage offered to the parties. Unfortunately, only Pennzoil has chosen to accept our most recent increased offer.

We request that you place these letters in the case file so that they may be reviewed again when you are in the process of preparing the compulsory pooling order. Thank you again for your assistance and cooperation and please call me should you have any questions regarding this letter, etc.

Sincerely,

*David M. Hundley*

Hightower #1 Re-entry  
E/2 NE/4 Section 4,  
T-17-S, R-37-E  
Lea County, New Mexico

Dear Mr. Seltzer:

As discussed in my previous letter of October 6, 1987, TXO wishes to drill the above referenced well in Lea County, New Mexico as an 11,400' Strawn test. As you know, TXO's application for compulsory pooling with respect to this well was heard by the OCD in Santa Fe, New Mexico on October 7, 1987.

In the interest of drilling this well as soon as possible, TXO Production Corp. wishes to increase its offer to you with a farmout of your interest under this well. As you know, in our letter of October 6, 1987 we offered a 1/3 back-in at payout should you wish to farmout your interest thereunder. This letter is to advise you of TXO's willingness to increase the back-in offer to 40% at payout of the well.

Please give me a call should you have any questions regarding this proposal, etc. Once again we request your early attention to our offer and thank you for your assistance and cooperation.

Sincerely,

Re: Revised Farmout Offer  
Hightower #1 Re-Entry  
E/2 NE/4 Section 4,  
T-17-S, R-37-E,  
Lea County, New Mexico

Gentlemen:

As you know, TXO Production Corp. is in the process of attempting to drill the above referenced well in Lea County, New Mexico. As you are well aware, a compulsory pooling case was heard for this well by the OCD on October 7, 1987.

In our testimony in front of the OCD we stated that TXO had offered Amerind Oil Company the opportunity to farmout its leasehold interest to TXO, delivering a 75% net revenue lease with an option to convert any retained overriding royalty interest into a 1/3 working interest at payout of the well. This letter is to advise Amerind Oil Company of the willingness of TXO to increase the back-in percentage from 1/3 to 40% at payout. It is hoped that this increased offer will allow the parties to reach a voluntary agreement and avoid the necessity of a compulsory pooling order.

Please give me a call should you have any questions regarding our revised offer. Once again we thank you for your early attention to this offer and shall look forward to hearing from you in the near future.

Sincerely,

  
David M. Hundley

Gentlemen:

As recently discussed over the telephone, Pennzoil Company has agreed to farmout its leasehold interest under the above referenced tract to TXO, pursuant to the term offered in our letter of October 20, 1987. You received an identical letter under the same date regarding this trade.

This letter is to advise you of the continued willingness of TXO to make an identical trade with you as to your leasehold interest in this tract. As I am sure you aware, the compulsory pooling case for this well (OCD Case #9233) was continued as to the interest of certain parties and is scheduled on the November 4, 1987 OCD docket.

We would appreciate your early attention to this matter and please do not hesitate to call me should you have any questions regarding our proposal or our plans for this well, etc.

Sincerely,

David M. Hundley

Re: OCD Case #9233  
Application of TXO Production Corp.  
for Compulsory Pooling  
and Directional Drilling  
Lea County, New Mexico

Dear Mr. Stogner:

As you know, the above referenced case was heard before you on October 7, 1987, in which TXO Production Corp.'s application was opposed by Amerind Oil Company and Mr. Bill Seltzer. The case was continued until the November 4, 1987 docket insofar as the interest of Mr. Bill Seltzer and Mr. Mark Hannifin was concerned, because TXO had failed to properly notify Messrs. Seltzer and Hannifin.

This letter is to advise you that a mutually acceptable agreement has been reached between TXO and Pennzoil Company, Amerind Oil Company, Mr. Bill Seltzer and Mr. Mark Hannifin. These parties have agreed to farmout their leasehold interest to TXO. Therefore, we request that the OCD remove Amerind Oil Company, Pennzoil Company, Mr. Bill Seltzer and Mr. Mark Hannifin from the list of those parties whose interest TXO Production Corp. wishes to pool. By copy of this letter, we will be advising these parties of our request to remove their names from the proceedings in OCD Case #9233.

Several parties who were notified of TXO's application pursuant to the OCD rules and who chose not to appear to protest the application of TXO Production Corp. have still not agreed to participate or farmout under the terms offered. Consequently, we will still require an order from the OCD in order to proceed with the drilling of the proposed well. Inasmuch as those parties who have protested our application have made a trade with TXO and those parties who have not made a trade with TXO did not protest the application of TXO Production Corp., we respectfully request that the OCD issue the requested Order at its earliest convenience.

We wish to thank you for your assistance and cooperation and please call me should you have any questions regarding this case, etc.

Sincerely,

  
David M. Hundley

Order No. R-8570  
Hightower # 1 Re-entry  
Lot 1 and the SE/4 NE/4  
Section 4-T17S-R37E  
Lea County, New Mexico

Gentlemen:

Pursuant to the terms of the captioned Compulsory Pooling Order, J.R. McGinley, Jr. as record owner of a 1/48 undivided mineral interest hereby elects to participate in the re-entry and deepening of the Hightower # 1.

Enclosed are three checks to TXO each in the amount of \$3,263.00 which total \$9,789.00 based on a 1/48 interest in the estimated well costs of \$469,800.00 as called for in the order.

Yours truly,

J.R. McGinley, Jr.

RE: Hightower "A" #1 Well  
571' FNL and 554' FEL  
Section 4, T-17-S, R-37-E  
Lea County, New Mexico

Gentlemen:

TXO Production Corp. is planning on spudding the above captioned well on or before March 15, 1988, in accordance with various Farmout Agreements. We are affording you the opportunity of participating by Joint Operating Agreement, farming out, joining as per the force pooling order, or leasing to TXO. I have enclosed a Joint Operating Agreement, along with the AFE for the Hightower "A" #1 well. This well will still have the same bottomhole location, but with a new legal location of 571' FNL and 554' FEL, Section 4, T-17-S, R-37-E, Lea County, New Mexico. If you should have any objections about this location, please call me.

On the second page of this letter various options are stated. Please send a copy of this letter in the enclosed self-addressed stamped envelope with the option chosen or contact me no later than March 14, 1988. I realize that this is short notice, however, we do have farmout obligations that must be met.

Your earliest consideration is greatly appreciated.

Very Truly Yours,

*Carol M. Sledge*
