RE: Administrative Order SWD-1459; Extension of Deadline

Cotton Draw 32 State Well No. 2 (API 30-025-41524)

1180' FSL, 1000' FEL; Unit P, Sec 32, T24S, R32E, NMPM, Lea County, New Mexico

Order Date: January 31, 2014

Injection into the Devonian formation; approved interval: 16992 feet to 19385 feet

Ms. Good:

Reference is made to your request, dated December 15, 2015, on behalf of Devon Energy Production Company, LP for a six-month extension of the January 31, 2015, deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection for the existing order is hereby extended until July 31, 2016.

Sincerely,

DAVID R. CATANACH
Director
