**RE: Administrative Order SWD-1704; Extension of Deadline to Inject**  
Well: Doodle Bug State SWD Well No. 1 (API 30-025-44144)  
Located: Unit G, Sec 16, T22S, R33E, NMPM, Lea County, New Mexico  
Order Date: November 20, 2017  
Injection formations: Devonian and Silurian formations; 16,420 feet to 17,200 feet

Dear Mr. Holcomb:

Reference is made to your August 15, 2019 request on behalf of Judah Oil LLC (the "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is two years after issuance of the order: November 20, 2019.

It is the Division's understanding from your correspondence that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval drilled in the one half-mile Area of Review (AOR). However, one new affected party within the AOR, Marathon Oil Permian LLC, was noticed and filed a protest on August 23, 2019. Subsequently, Marathon Oil Permian LLC withdrew its protest on December 17, 2019, and the extension request could be reviewed administratively for approval.

The Division finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended until November 20, 2020.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

A handwritten signature in blue ink, appearing to read "AS", is written over a horizontal line.

ADRIENNE SANDOVAL  
Director
