Dean,

Yes a CBL was run. I'm sorry the files were mis-named our log files. I will upload the CBL now.

Regards,
Cheryl

Hello Cheryl,

This email will be sufficient.

Regarding the logs, I do see the log with caliber, gamma ray, and collar locator tracks on it; however, do you know if a cement bond log was ran on this well?

Dean,

Yes the ready date should be 2/27/**20**, my mistake.

I have uploaded the RCB/GR/CCL.

Do you want me to upload the attached As Drilled Plat and Certified Directional Survey to E-docs?
Or is this sufficient?

Regards,
Cheryl

Hello Ms. Rowell,

I am reviewing the well file for Nash Unit #302H (30-015-45501) operated by XTO Energy, Inc. (5380).

Please submit the as drilled C-102 and directional survey for this well.

The ready date on the C-104 is incorrect. I assume the intended ready date is 2/27/20 rather than 2/27/19. Please confirm the date for me.

Additionally, reference was initially made to a CBL being run. Was this the case; if so, please submit it.
