Gentlemen:

Reference is made to our letter of April 6, 1956, regarding the Form C-103, "Report of Plugging", for the above-captioned well.

The C-103's were returned for insertion of a statement to the effect that the pits have been filled and the location levelled and cleared of junk.

Please advise if this work has been done or not.

Your attention is also called to Rule 1108 of the Commission's Rules and Regulations, revised November 21, 1955, by Order R-722, requiring that one copy of all electrical and radio-activity logs run on a well be filed with the Commission within 20 days after the completion of a well. We would appreciate receiving copies of any logs run on your Hanchett-State No. 1 Well at your earliest convenience.

Very truly yours,

D. S. NUTTER
Petroleum Engineer
