## Site Summary Report

---

**Site Name:** Patterson A Com A1

**Reporting Period:** 2008

---

**Location:** Unit G, Sec 2, Twn 31N, Rng 12W

**Canyon:** Farmington Glade

**Operator:** Burlington

**Vulnerable Class:** original

**OCD Ranking:** 40

**Lead Agency:** NMOCD

### **Status Narrative**

Thirty six quarters of water quality data have been collected from the seven monitoring wells located at this site. Source area well MW-2 was sampled through the third quarter of 2008 which revealed that all wells have had BTEX levels below WQCC MCLs for four consecutive quarters. A data summary is provided for easy reference.

This site met clean closure criteria in 2008 and a Site Closure Report has been prepared and submitted to the NMOCD. As such, information and monitoring results are not included for this site. Monitoring is planned to be discontinued and all wells abandoned pending NMOCD approval.
