NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	100-150 bbl	Volume Recovered	15-20 bbls
Source of Release	water tank failure	Date and Hour of Occurrence	04/18/15	Date and Hour of Discovery	04/18/15 9:30 am
Was Immediate Notice Given?	As soon as info was gathered <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Call to Maxey Brown; w/follow-up Email of C-141 to Tomáš Oberding		
By Whom?	Carolyn Doran Haynes	Date and Hour	04/18/15 10:15 am		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

RECEIVED

By OCD; Dr. Oberding at 9:07 am, Apr 20, 2015

Describe Cause of Problem and Remedial Action Taken.*

Steel Tank seam failure, releasing produced fluids into the facility berm. Some water flowed from a break in the berm onto the surrounding caliche pad and roadway. All standing fluid was recovered and disposed at Sundance Disposal. The water tank will be replaced.

Describe Area Affected and Cleanup Action Taken.*

Area affected was inside the facility berm, facility caliche pad area and roadway as depicted in attached sketch. Soils inside the berm will be excavated as applicable and replaced. Affected caliche pad surrounding the facility will be scraped-up, disposed at Sundance and replaced. Photos and further clean-up will be submitted.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
