NATURE OF RELEASE

Type of Release	Crude Oil	Volume of Release	150 bbls	Volume Recovered	110 bbls
Source of Release	8" Pipeline	Date and Hour of Occurrence	08/14/2014 @ 15:20	Date and Hour of Discovery	08/14/2014 @ 15:20
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Verbal notification to Tomas Oberding		
By Whom?	Camille Bryant	Date and Hour	08/15/2014 @ 14:00		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

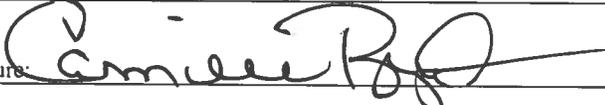

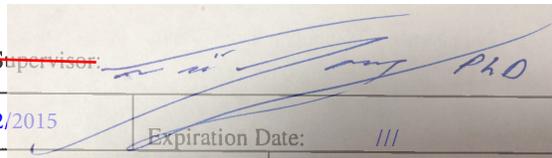

APPROVED
By OCD; Dr. Oberding at 9:24 am, Jul 22, 2015

If a Watercourse was Impacted, Describe Fully.*
RECEIVED
By OCD; Dr. Oberding at 9:24 am, Jul 22, 2015

Describe Cause of Problem and Remedial Action Taken.* Track hoe operator working for Plains struck a threaded fitting, breaking it causing a release of crude oil. The fitting was replaced.

Describe Area Affected and Cleanup Action Taken. The released crude oil impacted a surface area of approximately 18,000 square feet. The impacted area was remediated per NMOCD recommended guidelines. Soil samples collected from the floor and sidewalls of the excavated areas were analyzed by an NMOCD approved laboratory, and concentrations of benzene, BTEX, TPH and chloride were below the recommended remediation action levels established for the site by the NMOCD. Please reference the attached *Site Closure Request* for complete remediation details.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
