Describe Cause of Problem and Remedial Action Taken.*

BP hired construction crew to conducted site equipment modifications in October 2007. Shallow groundwater (3' - 5' below grade) was observed. Since impact appeared to be historical in nature, no immediate remedial action was necessary.

Describe Area Affected and Cleanup Action Taken.*

Investigation & excavation of impacted soils completed in November 2007, March & December 2008 (see attached site maps). Groundwater monitor well installed and sampled in November 2007, February 2008, and December 2008 (analytical data attached). **CLOSURE REQUESTED pursuant to 19.15.30 Section 12 (Exemptions from Abatement Plan Requirements), Subsection A, Paragraph 7.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
