APPROVED

1RF-11 Registration Application Addendum / Salado Draw Section 13 Recycling Containment / Lea County, NM (T26S, R32E, Section 13)

Dear Dr. Oberding,

Chevron U.S.A. Inc. (Chevron) respectfully requests approval of addendum to the previously-approved C-147 registration application under Environmental Order 1RF-11. It was determined that the original application incorrectly identified the type of fencing to be installed around the perimeter of the recycling containment as an eight-foot chain link fence. The correct fence to be installed is an eight-foot game fence.

Note that this type of game fence was an identified variance in a previous registration application in Eddy County by Chevron approved by NMOCD District 2 under Environmental Order 2RF-107.

Chevron appreciates your assistance in addressing this inaccuracy in the original application. Please contact me with any questions or need for additional information about this addendum.

Sincerely,

David W. Macurdy
