Subject: Closures of Remediation Projects – No Further Action

Re: 3RP # 378 McCoy Gas Com A 001A

Mr. Moskal:

OCD has reviewed the files on the release referenced above. The available information indicates BP has met the requirements of 19.15.29-30 NMAC. No further corrective actions are required. These referenced remediation projects is closed.

This finding by the OCD does not relieve BP of responsibility if future information shows a threat to ground water, surface water, human health, or the environment. Further, it does not relieve BP of responsibility for compliance with any federal, state, or local law.

Please plug remaining monitoring wells per requirements of the New Mexico Office of the State Engineer. Thanks.

Respectfully,

Randolph Bayliss, P.E.
Hydrologist, District III

Vanessa Fields
Environmental Specialist
