Matt Henderson
Hilcorp
1111 Travis
Houston, TX 77002

Ref 3RP-340 Randleman No. 1
2017 Annual Groundwater Monitoring Report January 15, 2018

Mr. Henderson:

OCD has reviewed the files on the release referenced above, including the 2017 AGWMR referenced above. which describes background water quality upgradient of the site. The available information indicates Hilcorp has met the requirements of 19.15.29-30 NMAC. No further corrective action is required. This referenced remediation project is closed.

This finding by the OCD does not relieve Hilcorp of responsibility if future information shows a threat to ground water, surface water, human health, or the environment. Further, it does not relieve Hilcorp of responsibility for compliance with any federal, state, or local law.

Please plug remaining monitoring wells per requirements of the New Mexico Office of the State Engineer. Thanks.

Respectfully,

Randolph Bayliss P.E.,
Hydrologist, District III

Cory Smith
Environmental Specialist, District III
