Subject: RE: 1 RP-5181 Remediation Plan

Mr. Baker,

The NMOCD has reviewed and accepts the remediation plan proposed for the WBDU 23 site (1RP-5181).

However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

The closure report for this facility is due by September 16, 2019. Please notify the OCD 2 days prior to commencing with the final remediation and sampling event.

Thanks,

Dylan Rose-Coss
