Was this a major	If YES, for what reason(s) does the responsi	ble party consider this a major release?		
release as defined by 19.15.29.7(A) NMAC?				
, ,				
☐ Yes ☐ No				
If YES, was immediate no	otice given to the OCD? By whom? To whom	n? When and by what means (phone, email, etc)?		
	Initial Res	ponse		
The responsible p	party must undertake the following actions immediately u	nless they could create a safety hazard that would result in injury		
☐ The source of the rele	ease has been stopped.			
☐ The impacted area ha	s been secured to protect human health and th	e environment.		
Released materials ha	ave been contained via the use of berms or dik	es, absorbent pads, or other containment devices.		
All free liquids and re	ecoverable materials have been removed and r	nanaged appropriately.		
If all the actions described	d above have <u>not</u> been undertaken, explain wh	y:		
		ediation immediately after discovery of a release. If remediation		
- 1		orts have been successfully completed or if the release occurred ase attach all information needed for closure evaluation.		
		t of my knowledge and understand that pursuant to OCD rules and		
regulations all operators are	required to report and/or file certain release notific	ations and perform corrective actions for releases which may endanger		
public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In				
		ponsibility for compliance with any other federal, state, or local laws

## Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

☐ A scaled site and sampling diagram as described in 19.15.29.11 NMAC			
Photographs of the remediated site prior to backfill or photos of the liner integrity if applicable (Note: appropriate OCD District office must be notified 2 days prior to liner inspection)			
☐ Laboratory analyses of final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling)			
Description of remediation activities			
and regulations all operators are required to report and/or file certain may endanger public health or the environment. The acceptance of should their operations have failed to adequately investigate and rechuman health or the environment. In addition, OCD acceptance of	ations. The responsible party acknowledges they must substantially onditions that existed prior to the release or their final land use in OCD when reclamation and re-vegetation are complete.

# **Liner Inspection**

<u>Remediation Activities:</u> Standing fluids were recovered via vac truck. A roustabout crew pressure washed the containment and equipment. Absorbent pads were used to recover excess fluids. Liner maintained integrity. Water shown on pictures is from a rain event from the previous days.
