Subject: Conditional Approval - Denton SWD Trunk Line 1RP-5271
Date: Thursday, February 13, 2020 3:54:00 PM
Attachments: [\(C-141 Remedation Plan\) Denton SWD Trunk Line 1RP-5271.pdf](#)

Aaron,

The NMOCD has reviewed the Remediation Plan for Denton SWD Trunk Line, 1RP-5271. This remediation plan is approved with the following conditions:

- At least one sample must be collected from the point of release and analyzed for Benzene, BTEX, GRO+DRO, and TPH. If concentrations of the above-mentioned constituents are detected in the sample(s), confirmation sampling will need to be analyzed for all constituents listed in Table 1.
- Grab samples will be collected at a rate of no more than one sample per 500 square feet from the bottom of the excavation.

Please let me know if you have any questions.

Thank you,
Cristina Eads

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
