**Re: Request for Permit to Discharge Hydrostatic Test Water in Grant County,
New Mexico - Amendment - Supersedes Letter Dated April 17, 1996**

Dear Mr. Eustice:

El Paso Natural Gas (EPNG) Company plans to conduct a hydrostatic test on approximately 1600 feet of reconditioned 10 3/4-inch O.D. pipe (Line No. 2010) in Grant County, New Mexico. EPNG is seeking authorization to discharge the test water in a frac tank and transport to a lined pond at EPNG's Deming Compressor Station in Luna County, New Mexico. The pipe to be tested is located in the Town of Hurley, New Mexico, Sec. 31, T-18-S, R-12-W. The total volume of water to be discharged in testing the pipe section is 6,800 gallons.

Attached is an information sheet showing the location and other discharge particulars. The test is scheduled to begin on or about May 9, 1996.

If you have any questions, please call me at 915/759-2216.

Sincerely,

A handwritten signature in cursive script that reads "Gilbert Aragon".

TRANSMITTAL

EL PASO NATURAL GAS COMPANY

is a major open-access transporter of natural gas serving West Texas, New Mexico, Arizona, Southern Nevada, and California. California receives more than half of its gas from El Paso's 17,500-mile pipeline system, which is connected to every major producing basin in the Southwest. El Paso's customer-friendly electronic bulletin board, Passport, offers state-of-the-art programs beneficial to producers, buyers, marketers, end-users, and other pipelines.
