Other Parties

Bill Olson - Envir. Bureau

Subject

TNM - 96-34 Spill Remediation

Discussion

Requested permission to backfill excavation

Believes that Tex-Mex removed source area to the extent practicable.

Told him OCD will need final report prior to issuing final approval. Current report is confusing. Not sure what samples represent. Requested that Tex-Mex clarify in final report

Conclusions or Agreements

Gave verbal permission but stated that OCD permission does not mean that OCD approves of final cleanup action. OCD will need ground water data and clear reporting of cleanup actions in final report.

**Subject:** Texas-NM PL TNM 96-34 spill site  
**Importance:** High

Due to up-gradient MW being damaged, TNM ask permission to plug well. This well has been tested and no contamination was observed.
