OCD hereby approves of the closure request for the following sites and requires no further action at this time.

1R0442
1R0443
1R0444
1R0448
1R0449

Please be advised that NMOCD approval of this plan does not relieve (Dynegy) of responsibility should their operations fail to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve (Dynegy) of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Re: Final Closure Proposal Denial
Natural Gas Pipeline
Site Location: UL-(SW/4), Sec 1-T22S-R37E
Dated: August 7, 2003

Dear Ms. Crane,

The New Mexico Oil Conservation Division (OCD) **hereby denies** the final closure proposal referenced above. Samples from excavation sites 1 and 2 exceed OCD criteria of 100 ppm TPH and 50 mg/Kg BTEX. The groundwater in that section is less than 55 ft. to surface. Contamination is greater than five feet deep. These sites score >19 points according to the ranking criteria set fourth in the "Guidelines".

Further investigation is required. The groundwater may be contaminated.

If you have any questions or need any assistance please feel free to contact me at (505) 393-6161 x113 or email: psheeley@state.nm.us

Sincerely,

Paul Sheeley-Environmental Engineer
