

1R - 473

APPROVALS

YEAR(S):

2006

Price, Wayne, EMNRD

From: Price, Wayne, EMNRD
Sent: Tuesday, June 06, 2006 8:46 AM
To: Mark Larson (mark@laenvironmental.com)
Subject: John H Hendrix EE Drinkard #3 1R0473

Pursuant to our technical meeting on June 06, 2006 JHHC proposes to install a clay barrier over areas where the Chlorides exceed 2500 ppm and install three feet of clean top soil on top of the barrier and fill the remaining excavated area with clean soil. A final report will be submitted at the end of project.

OCD hereby approves of these actions.

Please be advised that NMOCD approval of this plan does not relieve the owner/operator of Responsibility should their operations fail to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
