**RE: Contaminated Rock Cover Disposition  
Lordsburg Pump and Heater Station  
Hidalgo County, New Mexico**

Dear Mr. Janak:

The New Mexico Oil Conservation Division (OCD) has reviewed All American Pipeline Company's (AAPC) request dated October 16, 1995 for remediation on site of the contaminated rock cover. The request included sample results which indicated the rock cover to be nonhazardous. Based on the sample results, AAPC's remediation request is approved.

Please be advised that OCD approval does not relieve AAPC of liability if remaining contaminants pose a future threat to surface water, ground water, human health or the environment. In addition, OCD approval does not relieve AAPC of responsibility for compliance with any other federal, state or local laws and/or regulations.

If you have any questions, please feel free to call me at (505) 827-7155.

Sincerely,

  
Mark Ashley  
Geologist
