To: 'Gary Miller'; kpope@riceswd.com; treed@hec-enviro.com
Subject: RE: ROC, H-2 (AP-49) site Injection Approval

Dear Mr. Miller and Ms. Pope:

The NMOCD has reviewed the analytical results (dated today) submitted for the ROC, H-2 (AP049) site. Per our telephone conversation today, ROC may continue to inject into the upgradient well (MW-1) the treated water from the R/O system (including the treated water storage tank). However, since the chloride concentrations of the background concentrations found in farthest upgradient well (MW-3) is an average of 82 mg/L, the injection may only continue on condition that the chloride concentrations in the treated water storage tank continue to lower to the background concentration of 82 mg/L (or less) within 90 days. Please provide the OCD with monthly reports of the test results. Also, field conductivity may be used as an indicator of water quality if the OCD approves at least 4 comparison samples that are tested for field conductivity and field (or laboratory) chloride (existing data may be used for this comparison).

This approval supercedes the OCD approval of November 16, 2006. If you have any questions regarding this matter, please call me at 505-476-3489.

Subject: ROC, H-2 (AP-49) site

December 8, 2006

Mr. Ed Hansen
NMOCD
Santa Fe, New Mexico

Mr. Hansen:

Thank you for your input during our discussion this morning regarding groundwater injection at the ROC, H-2 (AP-49) site. Attached to this file is the lab analysis of the water samples collected from the processed water tank at the site. As you can see, the chloride levels are still higher than the levels we feel the equipment will ultimately achieve at the site. However, it is going to take some time to reduce the chloride levels in the processed water down to the 82 mg/kg levels that you have set. With that in mind, we are asking to be allowed to temporarily inject the water from the unit into MW-1 at the current chloride levels set out in the attached analysis as we continue to refine the equipment. The field conductivity of the processed water was 350uS. I would like to use the conductivity as an indication of the water quality as opposed to collecting samples from each tank of water for laboratory analysis. I feel that if we can dispose of the water currently in the tank, the next tank will show a marked improvement in chloride levels. Please consider

Cc: Price, Wayne, EMNRD
Subject: RE: ROC, Justis H-2 SWD, (AP-49) Stage 2 AP, Injection Approval

Dear Mr. Reed:

The NMOCD has reviewed the analytical results submitted for the ROC, H-2 (AP049) site. Per our telephone conversation today, ROC may continue to inject into the upgradient well (MW-1) the treated water from the R/O system. However, since the chloride concentrations in the treated water may be statistically elevated above the background concentrations found in farthest upgradient well (MW-3), the injection may only continue temporarily in order to remove the contents that is currently in the treated water storage tank.

If you have any questions regarding this matter, please call me at 505-476-3489.

Edward J. Hansen

November 16, 2006

Mr. Ed Hansen
NMOCD
Santa Fe, New Mexico

Mr. Hansen:

Thank you for taking the time to discuss the issue of groundwater injection at the ROC, H-2 (AP-49) site with me earlier today. We currently have approximately 1100 gallons of water that has been passed through the R/O system and is stored in a tank on site. A sample was taken from the tank and analyzed for BTEX, Chloride, Sulfate and Total Dissolved Solids (TDS). The analysis of this water is as follows:

BTEX <0.001 mg/L
Cl 171 mg/L
SO₄ 54 mg/L
TDS 412 mg/L

The quality of the well to be injected into (MW-1) up-gradient of the extraction well (MW-2) has ranged in the last 2 years as follows:

Cl 93.5 mg/L - 414 mg/L
SO₄ 114 mg/L - 215 mg/L
TDS 586 mg/L - 1130 mg/L

I was mistaken about the furthest up-gradient well (MW-3) quality. The quality has ranged in the last 2 years as follows:

Cl 27 mg/L - 154 mg/L
SO₄ 123 mg/L - 295 mg/L
TDS 450 mg/L - 1057 mg/L

We anticipate that subsequent water quality from the R/O system will only improve as the system adjustments are made. We request NMOCD approval to discharge this water into MW-1 at this time.

CERTIFIED MAIL

RETURN RECEIPT NO. 7005 1820 0001 6804 7142

August 28, 2006

Mr. Wayne Price
New Mexico Energy, Minerals, & Natural Resources
Oil Conservation Division, Environmental Bureau
1220 S. St. Francis Drive
Santa Fe, New Mexico 87504

RE: JUSTIS H-2 SWD
STAGE 2 PUBLIC NOTICE PROOF
NMOCD CASE #AP-49

Mr. Price:

In accordance with Rule 19 (Section 19.15.1.19 NMAC, Subsection G) Public Notice requirements, please accept the enclosed copies of proof that the appropriate individuals and entities were notified of the Stage 2 Abatement Plan submitted by Highlander Environmental Corp. for the Justis H-2 SWD Site.

Notices were sent via certified mail to landowners within the prescribed radius and return receipts were received for all landowners, indicating that the mailing was received. Mailings were also sent to the Lea County Commission and the list of Interested Parties found on the New Mexico Oil Conservation Division (OCD) website. Some mail deliveries could not be confirmed so the document was sent via electronic mail (e-mail) to the addresses provided on the list. Thirty-one total notifications were sent.

As directed by OCD, the Stage 2 Abatement Plan notifications were published in the *Albuquerque Journal* and the *Hobbs News-Sun* newspapers. Affidavits for these publications are enclosed.

ROC requests that OCD consider Stage 2 public notice complete for this site. Should you have any further questions regarding this request, do not hesitate to contact me. Thank you for your consideration.

2006 AUG 30 PM 1 57

ROC is the service provider (agent) for the Justis SWD System and has no ownership of any portion of the pipeline, well, or facility. The System is owned by a consortium of oil producers, System Partners, who provide all operating capital on a percentage ownership/usage basis.

LEGAL NOTICE
July 26, 2006

NOTICE OF PUBLICATION

State of New Mexico
Energy, Minerals and Natural Resources Department
Oil Conservation Division

Notice is hereby given that pursuant to New Mexico Oil
Conservation Division Regulations, the following Stage 2
Abatement Plan Proposal has been submitted to the Direc-
tor of the Oil Conservation Division, 1220 S. St. Francis Dr.,
Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engi-
neering Manager, Telephone (505) 393-9174, 122 West
Taylor, Hobbs, New Mexico 88240, has submitted a Stage
2 Abatement Plan for the Justis Salt Water Disposal Sys-
tem, Well #H-2, located approximately 4.0 miles southeast
of Jal in Unit Letter H, Section 2, Township 26 South,
Range 37 East, Lea County, New Mexico. Rice Operating
Company operates a saltwater disposal pipeline and facility
at the site. Chloride impact has been observed in the
groundwater at the site. In the past five quarterly sampling
events, no BTEX parameters have been detected at or
above reporting limits. The Stage 2 Abatement Plan details
the work and monitoring performed at this site to date, as
well as a proposed groundwater abatement system for the
site. Quarterly sampling of all monitor wells will continue
until results meet approval of the NMOCD. The monitor
well results will be reported annually until closure.

Any interested person may obtain further information from
the Oil Conservation Division and may submit written com-
ments to the Director of the Oil Conservation Division at the
address given above. The Stage 2 Abatement Plan may be
viewed at the above address or at the Oil Conservation Di-
vision District Office, 1625 N. French Drive, Hobbs, New
Mexico 88240, Telephone (505) 393-6161 between 8:00
a.m. and 4:00 p.m., Monday through Friday. Prior to ruling
on any proposed Stage 2 Abatement Plan, the Director of
the Oil Conservation Division shall allow at least thirty (30)
days after the date of publication of this notice during which
written comments may be submitted to him.

NOTICE OF PUBLICATION

**State of New Mexico
Energy, Minerals and Natural Resources Department
Oil Conservation Division**

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage 2 Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 1220 S. St. Francis Dr., Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engineering Manager, Telephone (505) 393-9174, 122 West Taylor, Hobbs, New Mexico 88240, has submitted a Stage 2 Abatement Plan for the Justis Salt Water Disposal System, Well #H-2, located approximately 4.0 miles southeast of Jal in Unit Letter H, Section 2, Township 26 South, Range 37 East, Lea County, New Mexico. Rice Operating Company operates a saltwater disposal pipeline and facility at the site. Chloride impact has been observed in the groundwater at the site. In the past five quarterly sampling events, no BTEX parameters have been detected at or above reporting limits. The Stage 2 Abatement Plan details the work and monitoring performed at this site to date, as well as a proposed groundwater abatement system for the site. Quarterly sampling of all monitor wells will continue until results meet approval of the NMOCD. The monitor well results will be reported annually until closure.

Any interested person may obtain further information from the Oil Conservation Division and may submit written comments to the Director of the Oil Conservation Division at the address given above. The Stage 2 Abatement Plan may be viewed at the above address or at the Oil Conservation Division District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8:00 a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage 2 Abatement Plan, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments may be submitted to him.

Subject: March 30 verbal approvals

Good day, Wayne. Thank you for your emailed approval regarding the EME jct. N-4-1 site. During our March 30 meeting, you gave verbal approval of the Corrective Action Plan (CAP) for the Hobbs I-29 EOL boot site with the condition that the excavation was extended to 12 ft BGS. Can we begin scheduling this work?

Thanks.

RE: JUSTIS H-2 SWD
PUBLIC NOTIFICATIONS
NMOCD CASE #AP-49

Mr. Price:

In accordance with Rule 19 (Section 19.15.1.19 NMAC, Subsection G) Public Notice requirements, please accept the enclosed copies of proof that the appropriate individuals and entities were notified of the Stage 1 Abatement Plan submitted by Highlander Environmental Corp. for the Justis H-2 SWD Site.

Notices were sent via certified mail to landowners within the prescribed radius and return receipts were received for all landowners, indicating that the mailing was received. Mailings were also sent to the Lea County Commission and the list of Interested Parties found on the New Mexico Oil Conservation Division (OCD) website. One mail delivery could not be confirmed so the document was sent via electronic mail (e-mail) to the addresses provided on the list. Thirty-one total notifications were sent and only one was not delivered; the notification to Mike Schultz of the International Technology Corp. (from the OCD Interested Parties list) was return as "attempted—not known." Previous mailings to this address have been refused.

As directed by OCD, the Stage 1 Abatement Plan notifications were published in the *Albuquerque Journal* and the *Hobbs News-Sun* newspapers. Affidavits for these publications are enclosed.

ROC requests that OCD consider public notice complete for this site. Should you have any further questions regarding this request, do not hesitate to contact me. Thank you for your consideration.

ROC is the service provider (operator) for the Justis SWD System and has no ownership of any portion of the pipeline, well, or facility. The System is owned by a consortium of oil producers, System Partners, who provide all operating capital on a percentage ownership/usage basis.

NOTICE OF PUBLICATION

State of New Mexico
Energy, Minerals and Natural Resources Department
Oil Conservation Division

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage I Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 1220 S. St. Francis Dr., Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engineering Manager, Telephone (505) 393-9174, 122 West Taylor, Hobbs, New Mexico 88240, has submitted a Stage I Abatement Plan for the Justis Salt Water Disposal System, Well #H-2, located approximately 4.0 miles southeast of Jal in Unit Letter H, Section 2, Township 26 South, Range 37 East, Lea County, New Mexico. Rice Operating Company operates a saltwater disposal pipeline and facility at the site. In the past three quarters, BTEX parameters have not been detected at or above reporting limits. Chloride impact has been observed in the groundwater at the site. The Stage I Abatement Plan details the work and monitoring performed at this site to date. A water well inventory will be performed to encompass a mile radius around the site. The information generated to date is being utilized to develop a groundwater remedy. The groundwater remedy will be presented to the NMOCD in a subsequent Stage II Abatement Plan. Quarterly sampling of all monitor wells will continue until results meet approval of the NMOCD. The monitor well results will be reported annually until closure.

Any interested person may obtain further information from the Oil Conservation Division and may submit written comments to the Director of the Oil Conservation Division at the address given above. The Stage I Abatement Plan Revision Proposal may be viewed at the above address or at the Oil Conservation Division District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8:00 a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage I Abatement Plan, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments may be submitted to him.

**RE: Rice Operating Company
Stage I Abatement Plan Public Notices for
Justis H-2 SWD, Justis Jct. L-1, BD Jct. F-17 and EME H-13**

Dear Mr. Price:

I have attached the proposed State I Abatement Plan Public Notices for the Rice Operating Company, Justis H-2 SWD (AP-49); Justis Jct. L-1 (AP-48); BD Jct. F-17 (AP-47); and EME H-13 (AP-44) for your approval.

Please let me know if you have any comments, or if you require any additional information. Your assistance is greatly appreciated.

Sincerely,

Tim Reed, P.G.
Vice President

cc: Kristen Farris Pope, Rice Operating Company

NOTICE OF PUBLICATION

**State of New Mexico
Energy, Minerals and Natural Resources Department
Oil Conservation Division**

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage I Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 1220 S. St. Francis Dr., Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engineering Manager, Telephone (505) 393-9174, 122 West Taylor, Hobbs, New Mexico 88240, has submitted a Stage I Abatement Plan for the Justis Salt Water Disposal System, Well #H-2, located approximately 4.0 miles southeast of Jal in Unit Letter H, Section 2, Township 26 South, Range 37 East, Lea County, New Mexico. Rice Operating Company operates a saltwater disposal pipeline and facility at the site. In the past three quarters, BTEX parameters have not been detected at or above reporting limits. Chloride impact has been observed in the groundwater at the site. The Stage I Abatement Plan details the work and monitoring performed at this site to date. A water well inventory will be performed to encompass a ½ mile radius around the site. The information generated to date is being utilized to develop a groundwater remedy. The groundwater remedy will be presented to the NMOCD in a subsequent Stage II Abatement Plan. Quarterly sampling of all monitor wells will continue until results meet approval of the NMOCD. The monitor well results will be reported annually until closure.

Any interested person may obtain further information from the Oil Conservation Division and may submit written comments to the Director of the Oil Conservation Division at the address given above. The Stage I Abatement Plan Revision Proposal may be viewed at the above address or at the Oil Conservation Division District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8:00 a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage I Abatement Plan, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments may be submitted to him.

**RE: ABATEMENT PLAN PROPOSALS
LEA COUNTY, NEW MEXICO**

Dear Ms. Haynes:

The New Mexico Oil Conservation Division (OCD) has reviewed Rice Operating Company's (Rice) ABATEMENT PLANS. These documents contains Rice's proposed Stage 1 and Stage 2 abatement plans for investigation and remediation of contamination for the sites listed below. Please note OCD has issued each site with a new abatement plan number. Please use this number in the future on all correspondence. The OCD has determined that the below Abatement Plan Proposals are administratively complete.

Before the OCD can complete a review of the proposals, the OCD requires that:

1. Rice issue approved notice of publication in the Albuquerque Journal and Hobbs News Sun pursuant to OCD Rule 19.G.(2).
2. Prior to issuing public notice, Rice shall issue approved written notice of the proposals pursuant to OCD Rule 19.G.(1). Please note 19.G(1)(d) can be found on OCD's web page.

Ms. Carolyn Doran Haynes
November 18, 2005
Page 2

3. Rice provide the OCD with proof of publication and proof of written notice. Proof of notice shall include a map of the surface owners of record within one (1) mile of the perimeter of the site and shall identify compliance with each of the provisions of Rule 19.G.

Please note in the future it might be prudent to include you public notice provisions in the abatement plan submittal. If you have any questions please do not hesitate to call (505)-476-3487 or E-mail wayne.price@state.nm.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne Price". The signature is fluid and cursive, with the first name "Wayne" written in a larger, more prominent script than the last name "Price".

**RE: STAGE I ABATEMENT PLAN
Justis SWD Site, Well #H-2
Unit H, Section 2, T-26-S, R-37-E, Lea County, New Mexico
NMOCD CASE #1R0423-01**

Mr. Price:

RICE Operating Company (ROC) has retained Highlander Environmental Corp. (Highlander) to address potential environmental concerns at the above-referenced site. ROC is the service provider (operator) for the Justis SWD System and has no ownership of any portion of the pipeline, well, or facility. The System is owned by a consortium of oil producers, System Partners, who provide all operating capital on a percentage ownership/usage basis. In general, project funding is not forthcoming until NMOCD approves the work plan. Therefore, your timely review of this submission is requested. The following Stage I Abatement Plan is for the Justis H-2 SWD Site.

Should you have any questions, please contact me at (432) 682-4559. Your prompt review of this submission is appreciated. Thank you for your attention to this matter.

Highlander Environmental Corp.

Re: Sites with confirmed Groundwater Contamination

Dear Ms. Haynes:

Pursuant to the New Mexico Oil Conservation Division rule 19.15.1.19 (Rule 19) Prevention and Abatement of Water Pollution requires all responsible persons who are abating water pollution in excess of the standards shall do so pursuant to an abatement plan approved by the director.

Therefore, Rice Operating Company is hereby required to submit individual abatement plans for OCD approval by July 15, 2005 for each of the following sites:

EME Sites;

H-13	UL	H	Sec 13, T20s, R36E	1R0429
M-9	UL	M	Sec 9, T20s, R37E	1R0331
