Dear Mr. Van Deventer and Ms. Pope:

The NMOCD has reviewed your request for an extension to submit additional information requested by the NMOCD regarding the above referenced site. Per our telephone conversation of today, the NMOCD understands that an additional 14 days is required for final internal review and formatting. Therefore, the NMOCD hereby approves the request for extension for submittal of additional information until Friday, December 15, 2006.

Please be advised that NMOCD approval of this extension does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any NMOCD, federal, state, or local laws and/or regulations.

Dear Ms Pope and Mr. Van Deventer:

OCD is in receipt of the ICP for the above subject site. Since this site has confirmed groundwater impact and over one year has transpired, OCD will require ROC to submit an abatement plan pursuant to OCD rule 19. In order to expedite this process OCD recommends that you submit a combined stage 1 and stage 2. Please submit this plan by no later than November 30, 2006.

This plan has been assigned OCD case # AP-58. All correspondence shall have this number included.
