| release as defined by 19.15.29.7(A) NMAC?   | ES, for what reason(s) does the responsible party consider this a major release?  given to the OCD? By whom? To whom? When and by what means (phone, email, etc)?  |  |  |  |
|---|--|--|--|--|
| Initial Response  |  |  |  |  |
| The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury   |  |  |  |  |
| Released materials have be All free liquids and recover   | n secured to protect human health and the environment. een contained via the use of berms or dikes, absorbent pads, or other containment devices. rable materials have been removed and managed appropriately. ve have not been undertaken, explain why: The release of natural gas to the atmosphere contained no |  |  |  |
| Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.   |  |  |  |  |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
