## Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

Closure Report Attachment Checklists	Each of the following items must be included in the closure report.
A scaled site and sampling diagram a	as described in 19.15.29.11 NMAC
Photographs of the remediated site p must be notified 2 days prior to liner insp	rior to backfill or photos of the liner integrity if applicable (Note: appropriate OCD District office pection)
Laboratory analyses of final samplin	g (Note: appropriate ODC District office must be notified 2 days prior to final sampling)
Description of remediation activities	
and regulations all operators are required to may endanger public health or the environ should their operations have failed to adec human health or the environment. In addit compliance with any other federal, state, or restore, reclaim, and re-vegetate the impact	above is true and complete to the best of my knowledge and understand that pursuant to OCD rules or report and/or file certain release notifications and perform corrective actions for releases which ment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability quately investigate and remediate contamination that pose a threat to groundwater, surface water, ion, OCD acceptance of a C-141 report does not relieve the operator of responsibility for or local laws and/or regulations. The responsible party acknowledges they must substantially sted surface area to the conditions that existed prior to the release or their final land use in dding notification to the OCD when reclamation and re-vegetation are complete.
