| Initial Response  |  |  |  |
| The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury   |  |  |  |
| ∑ The source of the release has been stopped.   |  |  |  |
| ☐ The impacted area has been secured to protect human health and the environment.   |  |  |  |
| Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices.   |  |  |  |
| All free liquids and recoverable materials have been removed and managed appropriately.   |  |  |  |
| If all the actions described above have <u>not</u> been undertaken, explain why:  |  |  |  |
|   |  |  |  |
|   |  |  |  |
|   |  |  |  |
|   |  |  |  |
|   |  |  |  |
| Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation. |  |  |  |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and  |  |  |  |
| regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have   |  |  |  |
| failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws   |  |  |  |
| and/or regulations.   |  |  |  |
