Was this a major release as defined by 19.15.29.7(A) NMAC?	If YES, for what reason(s) does the reason(s)	esponsible party consider this a major release?				
☐ Yes ⊠ No						
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)?						
Initial Response						
The responsibl	e party must undertake the following actions inn	mediately unless they could create a safety hazard that would result in injury				
☐ The source of the release has been stopped.						
The impacted area ha	s been secured to protect human health	n and the environment.				
Released materials ha	ave been contained via the use of berma	s or dikes, absorbent pads, or other containment devices.				
	ecoverable materials have been remove	-				
If all the actions described above have <u>not</u> been undertaken, explain why: The release was contained on the packed caliche bermed location. The well was shut in and all standing fluids were recovered utilizing a vac truck. The visibly contaminated material was excavated with a backhoe and disposed of at Lea Land, LLC.						
Per 19.15.29.8 B (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.						
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
