Joel,

We have received your Workplan/Remediation Proposal for **2RP-5318 Aspen 32 State #001**, thank you. With the overspray covering such a large area, 500 square feet for the minimum representative five-point composite excavation confirmation soil sample should be sufficient. This Workplan/Remediation proposal is approved.

Please let me know if you have any further questions.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
