Contact email	Stephen.Richards@dvn.com	Incident # (assigned by OCD)	NMAP1826381249
Contact mailing address:	PO Box 250, Artesia, NM 88211		

Location of Release Source

Latitude 32.104407 N _____ Longitude 103.757353 W _____
(NAD 83 in decimal degrees to 5 decimal places)

Site Name: Lusitano 27-34 Fed Com 235H	Site Type: Off well pad, along side of lease road
Date Release Discovered: 9/5/18, 8:30 PM	API# (if applicable): 30-015-44424

Unit Letter	Section	Township	Range	County
H	27	25S	31E	EDDY

Surface Owner: ☐ State ☒ Federal ☐ Tribal ☐ Private (Name: _____)

Nature and Volume of Release

Material(s) Released (Select all that apply and attach calculations or specific justification for the volumes provided below)

☐ Crude Oil	Volume Released (bbls)	Volume Recovered (bbls)
☒ Produced Water	Volume Released (bbls) 325	Volume Recovered (bbls) 250
	Is the concentration of dissolved chloride in the produced water >10,000 mg/l?	☒ Yes ☐ No
☐ Condensate	Volume Released (bbls)	Volume Recovered (bbls)
☐ Natural Gas	Volume Released (Mcf)	Volume Recovered (Mcf)
☐ Other (describe)	Volume/Weight Released (provide units)	Volume/Weight Recovered (provide units)

Cause of Release

A contractor's lay flat hose coupler failed, releasing approximately 325 barrels of treated produced water on to the ground. The spill traveled north and south along the lease road. The northern most point was 32.105300 N, 103.757290 W and the southern most point was 32.103610N, 103.757290 W. Approximately 250 barrels were recovered.

Incident ID	NMAP1826381249
District RP	2RP-4975
Facility ID	N/A
Application ID	pMAP1826380980

Was this a major release as defined by 19.15.29.7(A) NMAC? ☒ Yes ☐ No	If YES, for what reason(s) does the responsible party consider this a major release? Spill is over 25 barrels.
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? Brett Fulks sent email 9/7/18 at 7:20 AM to Jim Griswold, Mike Bratcher, and Maria Pruett with the OCD and to Shelly Tucker with the BLM.	

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

☒ The source of the release has been stopped. ☒ The impacted area has been secured to protect human health and the environment. ☒ Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. ☒ All free liquids and recoverable materials have been removed and managed appropriately.	
If all the actions described above have <u>not</u> been undertaken, explain why: 	
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.	
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
