RE: 2RP-5672

Kalei,

Your request for an extension to February 11th, 2020 is approved.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO Energy- Extension Request- Golden 8 Federal Battery 1 (2RP-5672)

All,

XTO is requesting an extension to the current deadline of December 11, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Golden 8 Federal Battery 1 (2RP-5672). The release was discovered September 12, 2019. Site assessment was completed and excavation of impacted soil is ongoing. The most recent analytical results collected on December 5, 2019 indicated the need for further excavation at the site. To provide enough time for further site assessment, remediation work, and the completion of a remediation work plan or closure report, XTO requests a 60- day extension of the deadline to February 11, 2020.

Thank you,

Kalei Jennings
