OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Josepha,

Going forward, it is extremely important that all environmental correspondence for OCD District 2 be addressed to the following D2 environmental team members:

Rob Hamlet – [robert.hamlet@state.nm.us](mailto:robert.hamlet@state.nm.us)

Victoria Venegas – [victoria.venegas@state.nm.us](mailto:victoria.venegas@state.nm.us)

Please continue to copy me as well, but be aware that I am not as involved in the day to day environmental activities as I once was. This particular C-141 was almost overlooked by me. I will get it where it needs to go, but please consider Rob and Victoria as the current District 2 Environmental Team. We will provide you with an RP number for this event as soon as it is available.

Thank you,

Mike Bratcher
