release as defined by 19.15.29.7(A) NMAC?	
Yes No	
I ies into	
If YES, was immediate notice given to the OCD? By w	whom? To whom? When and by what means (phone, email, etc)?
	Initial Response
The responsible party must undertake the following ac	tions immediately unless they could create a safety hazard that would result in injury
The source of the release has been stopped.	
■ The impacted area has been secured to protect hum	an health and the environment.
Released materials have been contained via the use	of berms or dikes, absorbent pads, or other containment devices.
All free liquids and recoverable materials have been	n removed and managed appropriately.
If all the actions described above have not been underta	ken, explain why:
	l l
	commence remediation immediately after discovery of a release. If remediation
	If remedial efforts have been successfully completed or if the release occurred (a) NMAC), please attach all information needed for closure evaluation.
	omplete to the best of my knowledge and understand that pursuant to OCD rules and
public health or the environment. The acceptance of a C-141	ain release notifications and perform corrective actions for releases which may endanger report by the OCD does not relieve the operator of liability should their operations have
	that pose a threat to groundwater, surface water, human health or the environment. In the operator of responsibility for compliance with any other federal, state, or local laws
and/or regulations.
