Subject: XTO - Extension Request Hackberry DI 2 Battery (NRM2031147310)

All,

XTO is requesting an extension to the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Hackberry DI 2 Battery. A release was discovered on October 18, 2020 that was assigned incident number NRM2031147310. An initial site assessment has been completed but remedial efforts are currently suspended to conduct subsurface drilling activities to supplement the depth to water determination. To provide enough time for further site assessment, drilling coordination, and the completion of a remediation/delineation work plan or closure report, XTO requests an extension of the deadline to April 16, 2021.

Thank you,

Joseph S. Hernandez

Associate Consultant, Geologist
