Initial Response								
The responsible p	party must undertake the following actions immediately	unless they could create a safety hazard that would result in injury						
☐ The source of the rele	ease has been stopped.							
☐ The impacted area ha	s been secured to protect human health and	the environment.						
Released materials ha	we been contained via the use of berms or d	ikes, absorbent pads, or other containment devices.						
All free liquids and re	ecoverable materials have been removed and	managed appropriately.						
If all the actions described	d above have <u>not</u> been undertaken, explain v	vhy:						
Dor 10 15 20 9 D (4) NIM	AC the regressible party may commence re	modiation immediately after discovery of a release. If remodiation						
has begun, please attach a	a narrative of actions to date. If remedial e	mediation immediately after discovery of a release. If remediation fforts have been successfully completed or if the release occurred ease attach all information needed for closure evaluation.						
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
